SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 333-173746

DELTA TUCKER HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

27-2525959
(I.R.S. Employer
Identification No.)

1700 Old Meadow Road, McLean, Virginia 22102
(571) 722-0210

(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Exchange Act (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 6, 2018, the registrant had 100 shares of its Class A common stock outstanding.

Disclosure Regarding Forward-Looking Information

This Quarterly Report on Form 10-Q contains various forward-looking statements regarding future events and our future results that are subject to the safe harbors created by the Private Securities Litigation Reform Act of 1995 under the Securities Act of 1933 (the "Securities Act") and the Securities Exchange Act of 1934 (the "Exchange Act"). Without limiting the foregoing, the words "believes," "thinks," "anticipates," "plans," "expects" and similar expressions are intended to identify forward-looking statements. Forward-looking statements involve risks and uncertainties. Statements regarding the amount of our backlog and estimated total contract values are other examples of forward-looking statements. We caution that these statements are further qualified by important economic, competitive, governmental, international and technological factors that could cause our business, strategy, projections or actual results or events to differ materially, or otherwise, from those in the forward-looking statements. These factors, risks and uncertainties include, among others, the following:

- our substantial level of indebtedness, our ability to refinance or amend the terms of that indebtedness, and changes in availability of capital and cost of capital;
- the ability to refinance, amend or generate sufficient cash to repay our New Senior Credit Facility, consisting of our Revolver (as defined herein) and Term Loan (as defined herein) maturing on July 7, 2019 and July 7, 2020, respectively, or to refinance, amend or repay our other indebtedness, including any future indebtedness, which may force us to take other actions to satisfy our obligations under our indebtedness, which may not be successful;
- the future impact of mergers, acquisitions, divestitures, joint ventures or teaming agreements;
- the outcome of any material litigation, government investigation, audit or other regulatory matters;
- restatement of our financial statements causing credit ratings to be downgraded or covenant violations under our debt agreements;
- policy and/or spending changes implemented by the Trump Administration, any subsequent administration or Congress, including any further changes to the sequestration that the United States ("U.S.") Department of Defense ("DoD") is currently operating under;
- termination or modification of key U.S. government or commercial contracts, including subcontracts;
- changes in the demand for services that we provide or work awarded under our contracts, including without limitation, the Logistics Civil Augmentation Program IV ("LOGCAP IV") and Afghanistan Life Support Services ("ALiSS") contract;
- the outcome of future extensions on awarded contracts and the outcomes of recompetes on existing programs;
- changes in the demand for services provided by our joint venture partners;
- changes due to pursuit of new commercial business in the U.S. and abroad;
- activities of competitors and the outcome of bid protests;
- changes in significant operating expenses;
- impact of lower than expected win rates for new business;
- general political, economic, regulatory and business conditions in the U.S. or in other countries in which we operate;
- acts of war or terrorist activities, including cyber security threats;
- variations in performance of financial markets;
- the inherent difficulties of estimating future contract revenue and changes in anticipated revenue from indefinite delivery, indefinite quantity ("IDIQ") contracts and indefinite quantity contracts ("IQC");
- the timing or magnitude of any award, performance or incentive fee granted under our government contracts;
- changes in expected percentages of future revenue represented by fixed-price and time-and-materials contracts, including increased competition with respect to task orders subject to such contracts;
- decline in the estimated fair value of a reporting unit resulting in a goodwill impairment and a related non-cash impairment charged against earnings;
- changes in underlying assumptions, circumstances or estimates that may have a material adverse effect upon the profitability of one or more contracts and our performance;
- implementation of the tax reform legislation known colloquially as the Tax Cuts and Jobs Act (the "Tax Act") or other tax reform implemented by the Trump Administration, and any subsequent administration or Congress;
- changes in our tax provisions or exposure to additional income tax liabilities that could affect our profitability and cash flows;
- uncertainty created by management turnover or other restructuring activities;
- termination or modification of key subcontractor performance or delivery;
- the ability to receive timely payments from prime contractors where we act as a subcontractor; and
- statements covering our business strategy, including those described in "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission ("SEC") on March 21, 2018 and other risks detailed from time to time in our reports filed with SEC.

Accordingly, such forward-looking statements do not purport to be predictions of future events or circumstances and therefore, there can be no assurance that any forward-looking statements contained herein will prove to be accurate. We assume no obligation to update the forward-looking statements.

Calendar Year

Beginning with the first quarter of calendar year 2018 and for all periods subsequent, we report the results of our operations as of the calendar end of each quarter and year end. Previously we reported quarterly as of the last Friday of a calendar quarter, except the fourth quarter of the fiscal year, which ends on December 31.

Included in this Quarterly Report are our unaudited condensed consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2018 and June 30, 2017, the related statements of deficit and cash flows for the six months ended June 30, 2018 and June 30, 2017 and the unaudited condensed consolidated balance sheets as of June 30, 2018 and December 31, 2017.

Notes to Unaudited Condensed Consolidated Financial Statements

Note 1 — Basis of Presentation and Accounting Policies

Basis of Presentation

Delta Tucker Holdings, Inc. ("Holdings"), the parent of DynCorp International Inc. ("DynCorp International"), through its subsidiaries (together, "the Company"), provides defense and technical services and government outsourced solutions primarily to U.S. government agencies domestically and internationally. The Company was incorporated in the state of Delaware on April 1, 2010. Our customers include the DoD, the U.S. Department of State ("DoS"), the U.S. Agency for International Development ("USAID"), foreign governments, commercial customers and certain other U.S. federal, state and local government departments and agencies. Unless the context otherwise indicates, references herein to "we," "our," "us," or "the Company" refer to Delta Tucker Holdings, Inc. and our consolidated subsidiaries.

The unaudited condensed consolidated financial statements include the accounts of the Company and our domestic and foreign subsidiaries. These unaudited condensed consolidated financial statements have been prepared pursuant to accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. However, we believe that all disclosures are adequate and do not make the information presented misleading. These unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and the related notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

In the opinion of management, normal recurring adjustments necessary to fairly present our financial position as of June 30, 2018 and December 31, 2017, the results of operations and statements of comprehensive income for the three and six months ended June 30, 2018 and June 30, 2017 and the statements of deficit and cash flows for the six months ended June 30, 2018 and June 30, 2017 have been included. The results of operations and statements of comprehensive income for the three and six months ended June 30, 2018 and June 30, 2017 and the statements of deficit and cash flows for the six months ended June 30, 2018 and June 30, 2017 are not necessarily indicative of the results to be expected for the full calendar year or for any future periods. We use estimates and assumptions required for preparation of the financial statements. The estimates are primarily based on historical experience and business knowledge and are revised as circumstances change. Our actual results may differ from these estimates. The unaudited condensed consolidated financial statements include the accounts of both our domestic and foreign subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

General - We are predominantly a services provider and only include products or systems when necessary for the execution of the service arrangement. As such, systems, equipment or materials are not generally separable from the services we provide. Revenue is recognized for a contract when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance, and collectability is probable. Our contracts are primarily with U.S. government customers and are generally structured under the following contract types: (i) fixed-price; (ii) time-and-materials; and (iii) cost-reimbursement contracts. In a fixed-price contract, the price is generally not subject to adjustment based on costs incurred and may include firm fixed-price, fixed-price with economic adjustment, and fixed-price incentive elements. Time-and-materials contracts provide for acquiring supplies or services on the basis of direct labor hours at fixed hourly/daily rates plus materials at cost. Cost-reimbursement contracts provide for payment for allowable incurred costs, to the extent prescribed in the contract, plus a fixed-fee, award-fee, incentive-fee or a combination thereof. We apply the appropriate guidance consistently to all contracts.

Our contracts contain promises to provide distinct goods or services to the customer which represent performance obligations and is the unit of account under ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASC 606"). To determine the proper revenue recognition method, consideration is given as to whether a single contract should be accounted for as more than one performance obligation or whether two or more contracts should be combined and accounted for as one single contract. For most of our contracts, the customer contracts with us to provide a significant service of integrating a complex set of tasks and deliverables into a single service solution. Hence, the entire contract is accounted for as one performance obligation. Less commonly, however, we may promise to provide distinct goods or services within a contract in which case we separate the contract into more than one performance obligation. If a contract has multiple performance obligations, the contract's transaction price is allocated based on the estimated relative standalone selling prices of the promised goods or services underlying each performance. The primary method used to estimate standalone selling price is the expected cost plus a margin approach. In instances where a

performance obligation does not have an observable standalone selling price, we select an estimation method that maximizes the use of observable inputs.

Major factors we consider in determining total estimated revenue and cost include the base contract price, contract options, change orders (modifications of the original contract), back charges and claims, and contract provisions for penalties, award fees and performance incentives. All of these factors and other less significant contract provisions are evaluated throughout the life of our contracts when estimating transaction price. We inherently have risks related to our estimates with long-term contracts. Actual amounts could materially differ from these estimates. We believe the following are the risks associated with our estimation process: (i) assumptions are uncertain and inherently judgmental at the time of the estimate; (ii) use of reasonably different assumptions could have changed our estimates, particularly with respect to estimates of contract revenues, costs and recoverability of assets; and (iii) changes in estimates could have material effects on our financial condition or results of operations. The impact of any one of these factors could contribute to a material cumulative adjustment.

Our revenues are primarily derived from long-term contracts and programs with a base period and multiple option periods for services provided to the U.S. federal government. We recognize revenue over time and our contracts typically have one year base periods and multiple one year option periods. The option periods are considered separate purchase obligations from the base period. Generally, the terms and conditions of the contracts result in a continuous transfer of control over the relevant goods and services. As a result of control transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the products or services to be provided. We generally use a cost-to-cost measure of progress for our contracts because it best depicts the transfer of assets to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred. Costs to fulfill include labor, materials and subcontractors' costs, other direct costs and an allocation of indirect costs. In certain instances, we may recognize revenue at the point in time at which control is transferred to the customer using an output method based on units produced or delivered.

We consider the unfunded portions of a contract and award and incentive fees to be variable consideration. Some of our long-term contracts with the U.S. government are only partially funded at inception as a result of the U.S. government's annual budget and appropriations process. The unfunded portion of a contract is included in the estimated transaction price to the extent it is probable that the unfunded portion of the contract will become funded. We consider the following factors in determining the likelihood that the unfunded portion of the contract would not result in a significant revenue reversal: (i) period of time before contract funding is expected; (ii) history of receiving funding in similar situations; and (iii) communication from the customer that funding will be obtained. Award and incentive fees are generally awarded upon achievement of specified performance objectives, milestones, or cost targets and are considered variable consideration. We do not consider the mere existence of potential award or incentive fees as presumptive evidence that award or incentive fees are to be included in determining total transaction price. We include award or incentive fees in the estimated transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. These estimates are based largely on an assessment of our anticipated performance, historical award experience, and information that is reasonably available to us.

Pre-contract costs are costs incurred to fulfill a contract in anticipation of a contract award. Pre-contract costs such as those specifically chargeable to a customer and probable of recovery under a specific anticipated contract would be capitalized. All other pre-contract costs, including start-up costs, would be expensed as incurred.

Management regularly reviews project profitability and underlying estimates, including total cost to complete a project. For each project, estimates for total project costs are based on such factors as a project's contractual requirements and management's assessment of current and future pricing, economic conditions, political conditions and site conditions. Estimates can be impacted by such factors as additional requirements from our customers, a change in labor markets impacting the availability or cost of a skilled workforce, regulatory changes both domestically and internationally, political unrest or security issues at project locations. Revisions to estimates are reflected in our consolidated results of operations as changes in accounting estimates in the periods in which the facts that give rise to the revisions become known by management. We believe long-term contracts, contracts in a loss position, contracts with material award fees, and contract modifications drive the significant changes in estimates in our contracts.

The preparation of the financial statements requires us to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates. Our estimates and assumptions are reviewed periodically, and the effects of changes, if any, are reflected in the consolidated statements of operations in the period that they are determined. The majority of our contracts are accounted for under series guidance, as the performance obligation represents a series of distinct goods and services where each day of the promised service is a distinct obligation, and the effects of changes in contract estimates related to certain types of contracts accounted for using an input method measure of progress, such as cost-to-cost, are recognized prospectively. Changes in these estimates can occur over the life of a contract for a variety of reasons, including changes in scope, estimated incentive or award fees, cost estimates, level of effort and/or other assumptions impacting

revenue or cost to perform a contract. Changes in contract estimates related to past performance are recognized in the period in which such changes are made for the inception to date effect of the changes.

The gross favorable and unfavorable adjustments to income before income taxes below reflect changes in contract estimates during each reporting period, excluding new or completed contracts where no comparative estimates exist between reporting periods. Amounts during the three and six months ended June 30, 2017 are presented under ASC 605, and the amounts during the three and six months ended June 30, 2018 are presented under ASC 606, due to the adoption of ASC 606 on January 1, 2018 using the modified retrospective method.

<i>(Amounts in millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Gross favorable adjustments	\$ 14.8	\$ 10.0	\$ 18.9	\$ 17.3
Gross unfavorable adjustments	(2.0)	(3.4)	(1.7)	(3.2)
Net adjustments	\$ 12.8	\$ 6.6	\$ 17.2	\$ 14.1

Contract Assets

Contract assets primarily consist of unbilled receivables which represent rights to consideration for work completed but not billed as of the reporting date. Due to the adoption of ASC 606, amounts previously presented as unbilled receivables in Accounts receivable, net of allowances, for the year ended December 31, 2017 of \$191.8 million, have prospectively been presented as Contract assets within the Company's consolidated balance sheets.

Contract Liabilities

Contract liabilities represent advanced payments, billings in excess of costs and earnings, and deferred revenue amounts. These amounts are recognized as revenue once the performance progress has occurred. Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period. Advance payments and billings in excess of revenue as current, and deferred revenue as current or noncurrent based on the timing of when revenue is expected to be recognized. Due to the adoption of ASC 606, amounts received from customers in excess of revenue recognized previously presented within customer liabilities in Total accrued liabilities, for the year ended December 31, 2017 of \$9.2 million, have prospectively been presented as Contract liabilities within the Company's consolidated balance sheets.

Accounting Policies

There have been no material changes to our significant accounting policies from those described in our Annual Report on Form 10-K for the year ended December 31, 2017, except as described below.

Recently Adopted Accounting Standards

In November 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 clarifies the guidance on the cash flow classification and presentation of changes in restricted cash or restricted cash equivalents. The Company elected to adopt ASU 2016-18 during the fourth quarter of calendar year 2017 and therefore, amounts generally described as restricted cash or restricted cash equivalents are now included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flow. The Company recasted its statement of cash flows for the six months ended June 30, 2017.

Our statement of cash flows explains the change in the total of cash, cash equivalents, and restricted cash. The following table provides a reconciliation of cash and cash equivalents, and restricted cash reported within the consolidated balance sheets that sum to the total of such amounts in the consolidated statements of cash flows:

<i>(Amounts in thousands)</i>	Six Months Ended	
	June 30, 2017	
Beginning of period		
Cash and cash equivalents	\$	118,218
Restricted cash		7,664
Total cash, cash equivalents and restricted cash, beginning of period		125,882
End of period		
Cash and cash equivalents		98,910
Restricted cash		—
Total cash, cash equivalents and restricted cash, end of period		98,910
Net decrease in cash, cash equivalents and restricted cash	\$	(26,972)

The following table illustrates changes in the Company's Condensed Consolidated Statements of Cash Flows as reported and as previously reported prior to the adoption of ASU 2016-18 in the fourth quarter of calendar year 2017:

<i>(Amounts in thousands)</i>	Six Months Ended	
	June 30, 2017	
	As Reported	As Previously Reported
Net cash (used in) provided by operating activities	\$ (340)	\$ 267
Net cash (used in) provided by investing activities	(2,819)	4,238
Net cash used in financing activities	(23,813)	(23,813)
Net decrease in cash, cash equivalents and restricted cash ⁽¹⁾	(26,972)	(19,308)
Cash, cash equivalents and restricted cash, beginning of period ⁽¹⁾	125,882	118,218
Cash, cash equivalents and restricted cash, end of period ⁽¹⁾	98,910	98,910

(1) Amounts in the As Reported column include cash, cash equivalents and restricted cash as required upon the adoption of ASU 2016-18. Amounts in the As Previously Reported column reflects only cash and cash equivalents.

In May 2014, the FASB issued ASC 606, which replaces numerous requirements in U.S. GAAP, including industry-specific requirements, and provides companies with a single revenue recognition model for recognizing revenue from contracts with customers. We adopted ASC 606, *Revenue from Contracts with Customers*, as of January 1, 2018 using the modified retrospective approach only on contracts not completed at the date of initial application with the cumulative effect of adoption recorded as an adjustment to the opening balance of equity as of that date without restatement of comparative periods. See this Note and Note 2 for the required disclosures related to the impact of adopting this standard and a discussion of the Company's updated policies related to revenue recognition.

Recently Issued Accounting Developments

In February 2016, the FASB issued ASU No. 2016-02, *Leases*. The guidance in ASU 2016-02 supersedes the lease recognition requirements in ASC Topic 840, *Leases*. ASU 2016-02 requires an entity to recognize right-of-use assets and lease liabilities arising from a lease for both financing and operating leases, along with additional qualitative and quantitative disclosures. Entities are required to adopt ASU 2016-02 using a modified retrospective approach, subject to certain optional practice expedients, and apply the provisions of ASU 2016-02 to leasing arrangements existing at or entered into after the earliest comparative period presented in the financial statements. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The new standard will be effective for the Company in the first quarter of calendar year 2019. The Company has established a cross-functional team of key stakeholders for implementing the new standard. As part of the Company's assessment and implementation plan, the Company is performing a completeness assessment over the lease population, analyzing the practical expedients and assessing opportunities to make certain changes to its business policies, processes, systems and internal controls in order to determine the best implementation strategy. Based on a preliminary assessment, the Company expects that most of its operating lease commitments will be subject to the new guidance and recognized as right-of-use assets and lease liabilities upon adoption, resulting in a material impact to our total assets and total liabilities on the consolidated balance sheets. The Company has not yet determined the impact of the adoption of ASU 2016-02 on its results of operations and cash flows. The Company is

continuing its assessment, which may identify additional impacts that this standard will have on its consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which is intended to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. To achieve this objective, the amendments in this update replace the existing incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The amendments are effective for annual reporting periods, and interim periods therein, beginning after December 15, 2019 and applied using a prospective transition approach for debt securities for which an other-than-temporary impairment had been recognized before the effective date. We are currently evaluating the potential effects of the adoption of ASU 2016-13 on our consolidated financial statements.

In February 2018, the FASB issued ASU No. 2018-02, *Reporting Comprehensive Income - Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income* to help businesses and other organizations present some effects from the Tax Act's reduction in the corporate tax rate in their income statements. ASU 2018-02 gives the option of reclassifying what are called the "stranded" tax effects within accumulated other comprehensive income (loss) to retained earnings (deficit) during each fiscal year or quarter in which the effect of the lower tax rate is recorded. ASU 2018-02 instructs businesses and other organizations to provide a disclosure in their financial statement footnotes that describes the accounting policy they used to release the income tax effects from accumulated other comprehensive income (loss), whether they are reclassifying the stranded income tax effects from the Tax Act, and information about the other effects on taxes from the reclassification. The update is effective for fiscal years beginning after December 15, 2018, and the interim periods in those years, and early adoption is permitted. We are currently evaluating the potential effects of the adoption of ASU 2018-02 on our consolidated financial statements.

Other accounting standards updates effective after June 30, 2018 are not expected to have a material effect on our consolidated financial position or results of operations and cash flows for the period ended June 30, 2018.

Note 2 — Revenue Recognition

In May 2014, the FASB issued ASC 606, *Revenue from Contracts with Customers*, which replaces numerous requirements in U.S. GAAP, including industry-specific requirements, and provides companies with a single revenue recognition model for recognizing revenue from contracts with customers. The core principle of the new standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. We adopted ASC 606, as of January 1, 2018 using the modified retrospective approach with the cumulative effect of adoption recorded as an adjustment to the opening balance of equity as of that date without restatement of comparative periods.

The impacts related to the adoption of ASC 606 on our portfolio of contracts primarily relate to the units of account and methods used to measure of progress toward satisfaction of a performance obligation. Previously, certain of our contracts that included multiple promises related to the transfer of goods or services to the customer were combined or segmented based on profit center and the requisite revenue was recognized by profit center using the percentage-of-completion method or completed-contract method. We now evaluate all promises in an arrangement to determine if they represent one or more distinct performance obligations. The adoption of ASC 606 will not change the total revenue or operating earnings recognized under these contracts, only the timing of when those amounts are recognized.

Nature of Goods and Services

The Company generally derives revenue from long-term, service-based contracts and programs for commercial, government, and military customers. Our contracts typically fall into the following two categories with the first representing substantially all of our revenue: (i) federal government contracts and (ii) other contracts.

Federal Government Contracts - Contracts with the U.S. federal government, primarily to the Department of Defense (“DoD”) and the Department of State (“DoS”), contemplate the provision of services related to aviation solutions, construction management, base and logistics operations, intelligence training, and operations and linguistics support. Certain contracts are structured using an IDIQ vehicle awarded to multiple contractors. However, many IDIQ vehicles permit the customer to direct work to a particular contractor. When a customer wishes to order services under an IDIQ contract, the customer issues a task order request for proposal to the contract awardees and task orders are awarded under a best-value approach. The task orders awarded may be fixed-priced, time-and-materials, or cost-reimbursement contracts.

The Company generally performs over a base period with multiple option periods. The U.S. government is not obligated to exercise options under a contract after the base period. At the time of completion of the contract term of a U.S. government contract, the contract may be re-competed to the extent the service is still required. Historically, the Company has received additional revenue through increases in program scope beyond that of the original contract and “over and above” requests derived from changes in customer requests. For most of our contracts, we provide a significant service of integrating equipment, materials, and services into a single project which is accounted for as one performance obligation. In certain instances, we also provide a stand-ready service in the case where the Company responds to the customer’s needs on the basis of its demand.

For contracts with multiple performance obligations, the contract’s transaction price is allocated to each performance obligation using the best estimate of the standalone selling price for each distinct good or service. Where a series of distinct services has been identified, the Company generally allocates variable consideration to distinct time increments of service (e.g. hours, days, etc.). Where the variable consideration is not directly tied to the base pricing structure of the contract (e.g. cost incurrence), the Company allocates variable consideration to a subset of services within a period (e.g. evaluation periods for awards/incentives).

Revenues are recognized over time upon contract specifications. The method utilized to measure performance progress reflects the best depiction of control to the customer. If control is transferred over time, revenue is recognized over time using the cost-to-cost-method to measure performance progress.

Typical payment terms for U.S. federal government contracts are in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., biweekly or monthly) or upon achievement of contractual milestones. In most instances, the customer generally pays the Company for actual costs incurred within a short period of time. In certain cases, the Company receives interim payments as work progresses or an advance payment. The Company recognizes a liability for advance payments in excess of revenue recognized which is included in contract liabilities on the balance sheet. The advance payment typically is not considered a significant financing component because it is used to meet working capital demands that can be higher in the early stages of a contract.

Other Contracts - Contracts with non-federal government customers are predominantly service arrangements which may involve various combinations related to the provision of services, delivery of equipment and materials, grant licenses and other rights, or take certain actions. For most of our contracts, we provide a significant service of integrating equipment, materials, or other services into a single project which is accounted for as one performance obligation. In certain instances, we also provide a stand-ready service in the case where the Company responds to the customer’s needs on the basis of its demand.

In determining transaction price, the Company considers the unfunded portions of a contract and award and incentive fees to be variable consideration which is estimated using the best estimate of consideration to which the Company expects to be entitled per the terms and conditions of the contract at inception and reassessed quarterly. For contracts with multiple performance obligations, the contract's transaction price is allocated to each performance obligation using the best estimate of the standalone selling price for each distinct good or service. Where a series of distinct services has been identified, the Company generally allocates variable consideration to distinct time increments of service (e.g. hours, days, etc.). Where the variable consideration is not directly tied to the base pricing structure of the contract (e.g. cost incurrence), the Company allocates variable consideration to a subset of services within a period (e.g. evaluation periods for awards/incentives).

Revenue is recognized over time upon contract specifications. The method utilized to measure performance progress reflects the best depiction of control to the customer. If consideration is considered fixed, revenue is recognized over time using the cost-to-cost-method to measure performance progress. If consideration is considered variable, revenue is recognized as performance occurs. In instances where the contract structure is time-and-materials, the Company may utilize the practical expedient allowing the recognition of revenue in the amount at which the Company invoices as the invoiced amounts correspond directly with the value provided to the customer and to which it is entitled to payment for performance to date. The Company is electing the practical expedient on not disclosing remaining performance obligations as the Company's performance obligations, with one exception, have an original expected duration of one year or less. The contract exception relates to a contract executed during the quarter ended June 30, 2018 which has a 30 month term with a remaining performance obligation of \$214.9 million as of June 30, 2018. We expect to recognize approximately 30% and 75% of our June 30, 2018 backlog as revenue over the next 12 and 24 months, respectively, with the remainder to be recognized thereafter. In addition, we received a \$45.1 million advance payment on this contract which is included in Contract liabilities.

Typical payment terms for non-federal government contracts are in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., biweekly or monthly) or upon achievement of contractual milestones. In certain cases, the Company receives interim payments as work progresses or an advance payment. The Company recognizes a liability for advance payments in excess of revenue recognized which is included in contract liabilities on the balance sheet. The advance payment typically is not considered a significant financing component because it is used to meet working capital demands that can be higher in the early stages of a contract.

Disaggregation of Revenue

The following tables represent revenues disaggregated by customer-type and contract-type and include a reconciliation of the disaggregated revenue with reportable segments for the three and six months ended June 30, 2018:

<i>(Amounts in thousands)</i>	Under ASC 606			
	Three months ended June 30, 2018

Financial Statement Impact of Adopting ASC 606

The Company adopted ASC 606 using the modified retrospective method and we recorded a net increase to opening accumulated deficit of \$1.3 million as of January 1, 2018 due to the cumulative impact of adopting ASC 606. Additionally, amounts previously presented as unbilled receivables in Accounts receivable, net of allowances, for the year ended December 31, 2017, have prospectively been presented as Contract assets and amounts received from customers in excess of revenue recognized previously presented within customer liabilities in Total accrued liabilities for the year ended December 31, 2017, have prospectively been presented as Contract liabilities within the Company's consolidated balance sheets. As a result of applying the modified retrospective method to adopt the new revenue guidance, the following adjustments were made to accounts on the condensed consolidated balance sheet as of January 1, 2018:

<i>(Amounts in thousands)</i>	As reported	Adjustments			Adjusted
	December 31, 2017	Contract Assets	Contract Liabilities	Accumulated Deficit	January 1, 2018
Current assets:

Other income, net	492	492	1,141	1,141
Income before income taxes	28,158	32,154	49,606	54,688
Provision for income taxes	(3,140)	(3,642)	(7,884)	(8,649)
Net income	25,018	28,512	41,722	46,039
Noncontrolling interests	(209)	(209)	(505)	(505)
Net income attributable to Delta Tucker Holdings, Inc.	\$ 24,809	\$ 28,303	\$ 41,217	\$ 45,534

The following summarizes the significant changes on the Company's condensed consolidated statement of operations for the three and six months ended June 30, 2018 as a result of the adoption of ASC 606 on January 1, 2018 compared to if the Company had continued to recognize revenues under ASC 605. The effect of the change was primarily driven by the change in period of performance of our contracts under ASC 605 as compared to ASC 606 and the impact of timing of recognition on variable consideration on certain contracts. The remaining impacts were not material.

Consolidated Statements of Comprehensive Income

	Three months ended June 30, 2018		Six months ended June 30, 2018	
	As reported	Pro forma as if the previous accounting guidance was in effect	As reported	Pro forma as if the previous accounting guidance was in effect
<i>(Amounts in thousands)</i>				
Net income	\$ 25,018	\$ 28,512	\$ 41,722	\$ 46,039
Other comprehensive income, net of tax:				
Foreign currency translation adjustment	(29)	(29)	(28)	(28)
Other comprehensive (loss) income, before tax	(29)	(29)	(28)	(28)
Income tax benefit related to items of other comprehensive (loss) income	6	6	6	6
Other comprehensive loss	(23)	(23)	(22)	(22)
Comprehensive income	24,995	28,489	41,700	46,017

Total liabilities	872,779	871,740
Common stock, \$0.01 par value – 1,000 shares authorized and 100 shares issued and outstanding at June 30, 2018	—	—
Additional paid-in capital	596,694	596,694
Accumulated deficit	(751,568)	(745,911)
Accumulated other comprehensive loss	(426)	(426)
Total deficit attributable to Delta Tucker Holdings, Inc.	(155,300)	(149,643)
Noncontrolling interests	5,395	5,395
Total deficit	(149,905)	(144,248)
Total liabilities and deficit	\$ 722,874	\$ 727,492

Total reported assets were \$4.6 million greater than total assets in the pro-forma balance sheet, which assumes the previous guidance remained in effect as of June 30, 2018. This was largely due to the change in period of performance of our contracts under ASC 605 as compared to ASC 606 and the impact of timing of recognition on variable consideration on certain contracts.

Total reported liabilities were \$1.0 million less than total liabilities in the pro-forma balance sheet, which assumes the previous guidance remained in effect as of June 30, 2018. This was primarily due to the change in amounts received from customers in excess of revenue recognized. The remaining impacts were not material.

Consolidated Statements of Cash Flows

Six months ended June 30, 2018

<i>(Amounts in thousands)</i>	Six months ended June 30, 2018	
	As reported	Pro forma as if the previous accounting guidance was in effect
Cash flows from operating activities		
Net income	\$ 41,722	\$ 46,039
Adjustments to reconcile net income to net cash provided by operating activities:		
Depreciation and amortization	13,721	13,721
Loss on early extinguishment of debt	239	239
Amortization of deferred loan costs and original issue discount	2,665	2,665
Allowance for losses on accounts receivable and other noncash gains or losses	(1,441)	(1,441)
Earnings from equity method investees	(269)	(269)
Deferred income taxes	(440)	(440)
Other, including paid in kind interest	3,092	3,092
Changes in assets and liabilities:		
Accounts receivable and contract assets	33,967	30,690
Prepaid expenses and other current assets	14,794	14,794
Accounts payable, accrued liabilities and contract liabilities	2,384	579
Income taxes payable	(4,672)	(3,907)
Net cash provided by operating activities	105,762	105,762
Cash flows from investing activities		
Purchase of property and equipment	(6,160)	(6,160)
Proceeds from sale of property and equipment	13	13
Purchase of software	(41)	(41)
Return of capital from equity method investees	6,595	6,595
Contributions to equity method investees	(200)	(200)
Net cash provided by investing activities	207	207
Cash flows from financing activities		
Payments on senior secured credit facility	(54,943)	(54,943)
Equity contribution from affiliates of Cerberus	200	200
Payment of dividends to noncontrolling interests	(623)	(623)
Net cash used in financing activities	(55,366)	(55,366)
Net increase in cash, cash equivalents and restricted cash	50,603	50,603
Cash, cash equivalents and restricted cash, beginning of period	168,250	168,250
Cash, cash equivalents and restricted cash, end of period	\$ 218,853	\$ 218,853

The adoption of ASC 606 had no impact on the totals of the Company's cash flows from operating, investing and financing activities.

Note 3 — Composition of Certain Financial Statement Captions

The following tables present financial information of certain consolidated balance sheet captions.

Prepaid expenses and other current assets

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Prepaid expenses	\$ 27,395	\$ 38,423
Inventories, net	6,448	8,240
Work-in-process inventory	401	520
Joint venture receivables	29	29
Other current assets	1,394	5,330
Total prepaid expenses and other current assets	\$ 35,667	\$ 52,542

Prepaid expenses include prepaid insurance, prepaid vendor deposits, and prepaid rent, none of which individually exceed 5% of current assets. The reduction in prepaid expenses is primarily due to the timing of insurance payments. Inventory is valued at the lower of cost or net realizable value.

Property and equipment, net

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Aircraft	\$ 3,868	\$ 3,868
Computers and related equipment	9,397	7,967
Leasehold improvements	17,632	17,614
Office furniture and fixtures	4,190	4,184
Vehicles	14,056	12,659
Gross property and equipment	49,143	46,292
Less accumulated depreciation	(25,852)	(22,724)
Total property and equipment, net	\$ 23,291	\$ 23,568

As of June 30, 2018 and December 31, 2017, Property and equipment, net, included the accrual for property additions of \$2.5 million and \$4.4 million, respectively. Depreciation expense classified as Cost of services, was \$1.5 million and \$3.2 million during the three and six months ended June 30, 2018, respectively. Depreciation expense classified as Cost of services, was \$1.0 million and \$2.0 million during the three and six months ended June 30, 2017, respectively.

Other assets, net

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Investment in affiliates	\$ 2,170	\$ 5,746
Palm promissory note, long-term portion	1,798	1,876
Other	6,924	4,885
Total other assets, net	\$ 10,892	\$ 12,507

Accrued payroll and employee costs

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Wages, compensation and other benefits	\$ 69,102	\$ 90,583
Accrued vacation	15,639	13,625
Accrued contributions to employee benefit plans	1,188	1,183
Total accrued payroll and employee costs	\$ 85,929	\$ 105,391

Accrued liabilities

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Customer liabilities	\$ 14,101	\$ 23,486
Accrued insurance	15,434	23,793
Accrued interest	23,307	23,194
Contract losses	1,657	2,660
Legal reserves	4,764	9,233
Joint venture payables	2,550	—
Other	12,010	16,318
Total accrued liabilities	\$ 73,823	\$ 98,684

We adopted ASC 606, *Revenue from Contracts with Customers*, as of January 1, 2018 using the modified retrospective approach. Due to the adoption of ASC 606, amounts received from customers in excess of revenue recognized previously presented within customer liabilities in Total accrued liabilities for the year ended December 31, 2017, have prospectively been presented as Contract liabilities within the Company's consolidated balance sheets without restatement to prior periods. See Note 6 for further discussion.

Customer liabilities represent amounts due back to a customer. Contract losses represent our best estimate of forward losses using currently available information and could change in future periods as new facts and circumstances emerge. Changes to the provision for contract losses are presented in Cost of services on our Statement of Operations. Legal matters include reserves related to various lawsuits and claims. See Note 9 for further discussion. Other is comprised primarily of accrued rent and workers' compensation related claims and other balances that are not individually material to the consolidated financial statements.

Other long-term liabilities

As of June 30, 2018 and December 31, 2017, Other long-term liabilities were \$12.1 million and \$13.1 million, respectively. Other long-term liabilities are primarily due to our long-term incentive bonus plan and nonqualified unfunded deferred compensation plan of \$2.6 million and \$3.3 million as of June 30, 2018 and December 31, 2017, respectively, and a long-term leasehold obligation related to our Tysons Comer facility in McLean, Virginia, of \$2.6 million and \$2.8 million as of June 30, 2018 and December 31, 2017, respectively. Other long-term liabilities also include an uncertain tax benefit of \$3.5 million as of June 30, 2018 and December 31, 2017. See Note 5 for further discussion.

Note 4 — Goodwill and Other Intangible Assets

In January 2018, the Company amended its organizational structure to improve efficiencies within existing businesses, capitalize on new opportunities, continue international growth and expand commercial business. The Company's three operating and reporting segments, Aviation Engineering, Logistics and Sustainment ("AELS"), Aviation Operations and Life Cycle Management ("AOLC") and DynLogistics, were re-aligned into two operating and reporting segments by combining AELS and AOLC into DynAviation with DynLogistics continuing to operate as a separate segment. Our two operating and reporting segments provide services domestically and in foreign countries primarily under contracts with the U.S. government. Each operating and reportable segment is its own reporting unit and only the DynLogistics reporting unit had a goodwill balance as of June 30, 2018, which we assess for potential goodwill impairment. The carrying amount of goodwill for DynLogistics was \$42.1 million as of both June 30, 2018 and December 31, 2017.

We assess goodwill and other intangible assets with indefinite lives for impairment annually in October or when an event occurs or circumstances change that would suggest a triggering event. If a triggering event is identified, a goodwill impairment test is performed to identify any possible impairment in the period in which the event is identified.

In connection with our annual assessment of goodwill during the fourth quarter of each year, we update our key assumptions, including our forecasts of revenue and income for each reporting unit. The projections for these reporting units include significant estimates related to new business opportunities. If we are unsuccessful in obtaining these opportunities in 2018, a triggering event could be identified and a goodwill impairment test would be performed to identify any possible goodwill impairment in the period in which the event is identified. There can be no assurance that the estimates and assumptions regarding forecasted earnings and cash flows, the period of strength of the U.S. defense spending, and other inputs used in forecasting the present value of forecasted cash flows will prove to be accurate projections of future performance.

During the six months ended June 30, 2018, we did not have a triggering event in any of our reporting units.

Amortization expense for customer-related intangibles, other intangibles and finite-lived tradenames was \$5.4 million and \$10.6 million for the three and six months ended June 30, 2018, respectively. Amortization expense for customer-related intangibles, other intangibles and finite-lived tradenames was \$8.0 million and \$16.0 million for the three and six months ended June 30, 2017, respectively.

Other intangibles are primarily representative of our capitalized software which had a net carrying value of \$2.2 million and \$3.2 million as of June 30, 2018 and December 31, 2017, respectively.

Estimated aggregate future amortization expense for finite lived assets subject to amortization are \$10.9 million for the six months ending December 31, 2018, \$21.6 million in 2019, \$11.3 million in 2020, \$0.2 million in 2021, \$0.0 million in 2022 and \$0.0 million thereafter.

Note 5 — Income Taxes

On December 22, 2017, the President of the United States signed into law the Tax Act. The Tax Act amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. For businesses, the Tax Act creates limitations on interest expense deductions (if certain conditions apply) and reduces the corporate federal tax rate from a maximum of 35% to a flat 21% rate, effective January 1, 2018. The Company is required to value its deferred tax assets and liabilities applying the rates prescribed by the enacted law for the period in which such deferred tax assets and liabilities are expected to reverse. SEC Staff Accounting Bulletin ("SAB") 118 allows us to provide a provisional estimate of the impacts of the Tax Act due to the complexities involved in accounting for the enactment of the Tax Act. SAB 118 provides a measurement period that should not extend beyond one year from the enactment of the Tax Act to complete the accounting under ASC 740, Income Taxes. Specific impacts of the Tax Act are discussed below.

The domestic and foreign components of Income before income taxes are as follows:

<i>(Amounts in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Domestic	\$ 27,649	\$ 9,442	\$ 49,081	\$ 12,226
Foreign	509	1,822	525	1,865
Income before income taxes	\$ 28,158	\$ 11,264	\$ 49,606	\$ 14,091

Non-current deferred tax assets, net, was \$0.8 million and \$0.4 million as of June 30, 2018 and December 31, 2017, respectively.

Our effective tax rate ("ETR") was 11.1% and 15.9% for the three and six months ended June 30, 2018, respectively. Our ETR was 47.1% and 59.2% for the three and six months ended June 30, 2017, respectively. For the three and six months ended June 30, 2018, the ETR was primarily driven by an increase in income before income taxes and a decrease in the corporate federal tax rate effective January 1, 2018.

Management assesses both the available positive and negative evidence to determine whether it is more likely than not that there will be sufficient sources of future taxable income to recognize deferred tax assets. The Company must also assess whether its valuation allowance analyses are affected by the Tax Act. The following items impacted the valuation allowance due to the enacted Tax Act:

- A reduction in deductible interest expense for federal income tax purposes which will create an indefinite lived asset;
- The prevention of deferring revenue with respect to unbilled receivables; and
- The recognition of revenue it had previously deferred as unbilled receivables over a four-year period pursuant to Internal Revenue Code ("IRC") Section 481.

While we anticipate that the Tax Act will result in the Company enhancing its ability to recognize existing deferred tax assets in the future, the Company also anticipates that the Tax Act will create new deferred tax assets that will be subject to future valuation allowance. As such, the Company will remain in a valuation allowance on most domestic deferred tax assets for the period ended June 30, 2018 but will assess the need for valuation allowance each period. As of June 30, 2018 and December 31, 2017, our valuation allowance was \$62.5 million and \$66.6 million, respectively.

As of June 30, 2018 and December 31, 2017, we had \$2.8 million of total unrecognized tax benefits of which \$2.7 million would impact our effective tax rate if recognized. We do not expect the unrecognized tax benefit and any related interest or penalties to be settled within the next twelve months.

During the six months ended June 30, 2018, we made no estimated federal income tax payments. All of our income taxes paid or refunds received during the six months ended June 30, 2018 were related to foreign jurisdictions.

During the six months ended June 30, 2018, a tax assessment from the Saudi Arabia Tax Authority ("GAZT") was received, seeking approximately \$7.7 million in taxes and penalties specific to an existing audit of a branch location for periods between 2002 to 2013. We filed an initial appeal on the assessment with the GAZT and we previously established an accrual for the more likely than not amount of the estimated tax liability. We will continue to monitor and our estimate for the potential tax liability has not changed.

Note 6 — Contract Balances

Our contract balances consist of accounts receivable, contract assets and contract liabilities.

We adopted ASC 606, *Revenue from Contracts with Customers*, as of January 1, 2018 using the modified retrospective approach. Due to the adoption of ASC 606, amounts previously presented as unbilled receivables in Accounts receivable, net of allowances, for the year ended December 31, 2017, have prospectively been presented as Contract assets within the Company's consolidated balance sheets without restatement to prior periods. Contract assets primarily consist of unbilled receivables which represent rights to consideration for work completed but not billed as of the reporting date. The balance of unbilled receivables consists of costs and fees that are: (i) billable immediately; (ii) billable on contract completion; or (iii) billable upon other specified events, such as the resolution of a request for equitable adjustment or formal claim. Contract assets as of June 30, 2018 include \$23.8 million related to costs incurred on projects for which we are awaiting final funding, definitization or other contract actions in order for us to bill our customer. As of December 31, 2017, unbilled accounts receivable included \$12.0 million related to costs incurred on projects for which we are awaiting final funding, definitization or other contract actions in order for us to bill our customer. As of June 30, 2018 and December 31, 2017, we had one contract claim outstanding totaling \$2.7 million, net of reserves. We do not believe we have significant exposure to credit risk as our receivables are primarily with the U.S. government.

Due to the adoption of ASC 606, amounts previously presented as customer liabilities in Total accrued liabilities for the year ended December 31, 2017, have prospectively been presented as Contract liabilities within the Company's consolidated balance sheets without restatement to prior periods. Contract liabilities represent advanced payments, billings in excess of costs and earnings, and deferred revenue amounts. These current and noncurrent contract liabilities are transferred to contract assets once the performance progress has occurred. Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period.

Our contract balances consisted of the following:

<i>(Amounts in thousands)</i>	June 30, 2018	December 31, 2017	\$ Change
Accounts receivable, net of allowances	\$ 149,268	\$ 160,770	\$ (11,502)
Unbilled accounts receivable	—	191,780	(191,780)
Contract assets	169,416	—	169,416
Contract liabilities	53,975	—	53,975

During the six months ended June 30, 2018:

- we reclassified \$191.8 million of Unbilled accounts receivable to Contract assets due to the implementation of ASC 606;
- we increased Contract assets by \$1.1 billion due to the recognition of revenue in calendar year 2018, which included adjustments for changes in estimates arising from a change in the measure of progress, a change in an estimate of the transaction price or contract modifications;
- we reclassified \$1.1 billion of Contract assets to Accounts receivable when the right to consideration became unconditional;
- we recognized revenue of \$3.4 million related to our Contract liabilities as of January 1, 2018.

Our allowance for doubtful accounts was \$9.3 million as of June 30, 2018 compared to \$10.1 million as of December 31, 2017, and is primarily due to outstanding receivables where we operated under a subcontract for a prime contractor on a U.S. government program that ended December 31, 2014. See Note 9 for further discussion.

Note 7 — Fair Value of Financial Assets and Liabilities

ASC 820 – *Fair Value Measurements and Disclosures* establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1, defined as observable inputs such as quoted prices in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, accounts receivable, accounts payable, and borrowings. Because of the short-term nature of cash and cash equivalents, accounts receivable, and accounts payable, the fair value of these instruments approximates the carrying value.

Our estimate of the fair value of our 11.875% senior secured second lien notes (the "Second Lien Notes"), and New Senior Credit Facility (as defined in Note 8) is based on Level 1 and Level 2 inputs, as defined above. Our estimate of the fair value of our Cerberus 3L Notes (as defined in Note 8) is based on Level 3 inputs, as defined above. We used the following techniques in determining the fair value disclosed for the Cerberus 3L Notes classified as Level 3. The fair value as of June 30, 2018 has been calculated by discounting the expected cash flows using a discount rate of 6.3%. This discount rate is determined using the Moody's credit rating for the Second Lien Notes and reducing the rating one level lower for the Cerberus 3L Notes as they are subordinated to the Second Lien Notes.

	As Of			
	June 30, 2018		December 31, 2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<i>(Amounts in thousands)</i>				
11.875% senior secured second lien notes	\$ 381,849	\$ 397,963	\$ 379,006	\$ 401,273
Term loan	127,343	127,343	182,286	182,286
Cerberus 3L notes	33,245	30,025	32,420	30,267
Total indebtedness	542,437	555,331	593,712	613,826
Less current portion of long-term debt	—	—	(54,943)	(54,943)
Total long-term debt	\$ 542,437	\$ 555,331	\$ 538,769	\$ 558,883

Note 8 — Debt

Debt consisted of the following:

As of June 30, 2018				
<i>(Amounts in thousands)</i>	Carrying Amount	Original Issue Discount on Term Loan	Deferred Financing Costs, Net	Carrying Amount less Original Issue Discount on Term Loan and Deferred Financing Costs, Net
11.875% senior secured second lien notes	\$ 381,849	\$ —	\$ (977)	\$ 380,872
Term loan	127,343	(7,225)	(1,850)	118,268
Cerberus 3L notes	33,245	—	(67)	33,178
Total indebtedness	542,437	(7,225)	(2,894)	532,318
Less current portion of long-term debt, net	—	—	—	—
Total long-term debt, net	<u>\$ 542,437</u>	<u>\$ (7,225)</u>	<u>\$ (2,894)</u>	<u>\$ 532,318</u>

As of December 31, 2017				
<i>(Amounts in thousands)</i>	Carrying Amount	Original Issue Discount on Term Loan	Deferred Financing Costs, Net	Carrying Amount less Original Issue Discount on Term Loan and Deferred Financing Costs, Net
11.875% senior secured second lien notes	\$ 379,006	\$ —	\$ (1,177)	\$ 377,829
Term loan	182,286	(8,996)	(2,776)	170,514
Cerberus 3L notes	32,420	—	(72)	32,348
Total indebtedness	593,712	(8,996)	(4,025)	580,691
Less current portion of long-term debt, net ⁽¹⁾	(54,943)	1,110	181	(53,652)
Total long-term debt, net	<u>\$ 538,769</u>	<u>\$ (7,886)</u>	<u>\$ (3,844)</u>	<u>\$ 527,039</u>

(1) The carrying amount of the current portion of long-term debt as of December 31, 2017 includes our Excess Cash Flow Payment of \$54.9 million, which was paid on March 21, 2018.

The original issue discount on the Term Loan facility under the New Senior Credit Facility (the "Term Loan") and deferred financing costs are amortized through interest expense. Amortization related to the original issue discount was \$0.9 million and \$1.8 million during the three and six months ended June 30, 2018, respectively, and was \$0.9 million and \$1.8 million during the three and six months ended June 30, 2017. Amortization related to deferred financing costs was \$0.4 million and \$0.9 million during the three and six months ended June 30, 2018, respectively, and was \$0.5 million and \$0.9 million during the three and six months ended June 30, 2017, respectively.

Deferred financing costs for the six months ended June 30, 2018 were reduced by \$0.2 million related to the pro rata write-off of deferred financing costs to loss on early extinguishment of debt as a result of the \$54.9 million Excess Cash Flow principal payment made on the Term Loan on March 21, 2018, which was the only principal payment made on the Term Loan during the six months ended June 30, 2018. Deferred financing costs for the six months ended June 30, 2017 were reduced an immaterial amount related to the pro rata write-off of deferred financing costs to loss on early extinguishment of debt as a result of the \$25.1 million in principal prepayment made on the Term Loan.

New Senior Credit Facility

On July 7, 2010, we entered into a senior secured credit facility (the "Senior Credit Facility"), with a banking syndicate and Bank of America, N.A. as Administrative Agent (the "Agent"). On April 30, 2016, we entered into Amendment No. 5 ("Amendment No. 5") to the Senior Credit Facility which provided for a new senior secured credit facility (the "New Senior Credit Facility") upon the satisfaction of certain conditions. On June 15, 2016, we satisfied the conditions set forth in Amendment No. 5 and the New Senior Credit Facility became effective. The New Senior Credit Facility is secured by substantially all of our assets and guaranteed by substantially all of our subsidiaries.

As of June 30, 2018, the New Senior Credit Facility provided for the following:

- a \$127.3 million Term Loan;
- a \$85.8 million class B revolving facility (the "Revolver"); and
- up to \$15.0 million in incremental revolving facilities provided by and at the discretion of certain non-debt fund affiliates that are controlled by Cerberus (as defined herein), which shall rank pari passu with, and be on the same terms as, the Revolver.

As of June 30, 2018 and December 31, 2017, the available borrowing capacity under the New Senior Credit Facility was approximately \$65.5 million and included \$20.3 million in issued letters of credit. Amounts borrowed under the Revolver are used to fund operations. As of June 30, 2018 and December 31, 2017 there were no amounts borrowed under the Revolver. The Revolver and the Term Loan mature on July 7, 2019 and July 7, 2020, respectively.

Interest Rates on Term Loan & Revolver

The interest rate per annum applicable to the Term Loan is, at our option, equal to either the Base Rate or the Eurocurrency Rate, in each case, plus (i) 5.00% in the case of Base Rate loans and (ii) 6.00% in the case of Eurocurrency Rate loans. The interest rate per annum applicable to the Revolver is, at our option, equal to either a Base Rate or a Eurocurrency Rate plus (i) a range of 4.50% to 5.00% based on the First Lien Secured Leverage Ratio in the case of Base Rate loans and (ii) a range of 5.50% to 6.00% based on the First Lien Secured Leverage Ratio in the case of Eurocurrency Rate loans. The First Lien Secured Leverage Ratio is the ratio of total first lien secured consolidated debt (net of up to \$75 million of unrestricted cash and cash equivalents) to consolidated earnings before interest, taxes, depreciation and amortization ("Consolidated EBITDA"), as defined in the New Senior Credit Facility. The variable Base Rate has a floor of 2.75% and the variable Eurocurrency Rate has a floor of 1.75%. Interest payments on both the Term Loan and Revolver are payable at the end of the interest period as defined in the New Senior Credit Facility, but not less than quarterly.

As of June 30, 2018 and December 31, 2017, the applicable interest rate on the Term Loan was 8.09% and 7.75%, respectively.

Interest Rates on Letter of Credit Subfacility and Unused Commitment Fees

All of our letters of credit under the New Senior Credit Facility are subject to a 0.25% fronting fee. The letter of credit subfacility bears interest at an applicable rate that ranges from 5.50% to 6.00% with respect to the Revolver commitments. The unused commitment fee on our Revolver ranges from 0.50% to 0.75% on the undrawn amount of the facility depending on the First Lien Secured Leverage Ratio. Interest payments on both the letter of credit subfacility and unused commitments are payable quarterly in arrears. We will also pay customary letter of credit and agency fees.

The applicable interest rate for our letter of credit subfacility was 5.50% as of June 30, 2018 and December 31, 2017, respectively. The applicable interest rate for our unused commitment fees was 0.50% as of June 30, 2018 and December 31, 2017.

Principal Payments

The credit agreement governing the New Senior Credit Facility contains an annual requirement to submit a portion of our Excess Cash Flow, as defined in the credit agreement, within five business days of filing annual financial statements, as additional principal payments. Based on our annual financial results for the years ended December 31, 2017 and 2016, we made additional principal payments as required under the Excess Cash Flow provisions of the New Senior Credit Facility of \$54.9 million on March 21, 2018 and \$25.1 million on April 4, 2017. Certain other transactions can trigger mandatory principal payments such as tax refunds, a disposition of a portion of our business or a significant asset sale. We had no such transactions during the six months ended June 30, 2018 or June 30, 2017.

The New Senior Credit Facility requires us to prepay outstanding term loans, subject to certain exceptions, with:

- 100% of excess cash flow (as defined in Amendment No. 5) less the amount of certain voluntary prepayments as described in Amendment No. 5; and
- 100% of the net cash proceeds of all non-ordinary course asset sales and casualty and condemnation events, if we do not reinvest or commit to reinvest those proceeds in assets to be used in our business or to make certain other permitted investments within six months (and, if committed to be so reinvested, actually reinvested within twelve months).

We are permitted to voluntarily repay outstanding loans under the New Senior Credit Facility at any time without premium or penalty, other than customary "breakage" costs with respect to Eurocurrency Rate Loans.

Maturity and Principal Amortization

We are required to make principal amortization payments with respect to the Term Loan of \$22.5 million on or prior to June 15, 2017 and \$22.5 million on or prior to June 15, 2018, which amounts may be reduced as a result of the application of certain prepayments, including our Excess Cash Flow payment. The June 15, 2018 and June 15, 2017 principal amortization payments

were fully satisfied as a result of the additional principal payments of \$54.9 million and \$25.1 million made on March 21, 2018 and April 4, 2017 respectively under the Excess Cash Flow requirement discussed above. The principal amount of the Term Loan may be reduced as a result of prepayments, with the remaining amount payable on July 7, 2020.

Guarantee and Security

The guarantors of the obligations under the New Senior Credit Facility are identical to those under the Second Lien Notes and the Cerberus 3L Notes. See Note 12. The New Senior Credit Facility is secured on a first lien basis by the same collateral that secures the Second Lien Notes on a second lien basis and the Cerberus 3L Notes on a third lien basis.

Covenants and Other Terms

The New Senior Credit Facility contains a number of financial, as well as non-financial, affirmative and negative covenants that we believe are usual and customary. Among other things, the New Senior Credit Facility requires us to maintain a maximum total leverage ratio and a minimum interest coverage ratio. The total leverage ratio is the ratio of Consolidated Total Debt, as defined in Amendment No. 5 (which definition excludes debt under the Cerberus 3L Notes), less unrestricted cash and cash equivalents (up to \$75.0 million) to Consolidated EBITDA, as defined in Amendment No. 5, for the applicable period. The maximum total leverage ratio was 5.40 to 1.0 for the period ended June 30, 2018. The interest coverage ratio is the ratio of Consolidated EBITDA to Consolidated Interest Expense, as defined in Amendment No. 5 (which provides that interest expense with respect to the Cerberus 3L Notes is excluded). The minimum interest coverage ratio was 1.70 to 1.0 for the period ended June 30, 2018.

The New Senior Credit Facility requires, solely for the benefit of the lenders under the Revolver, for us to maintain minimum liquidity (based on availability of revolving credit commitments plus unrestricted cash and cash equivalents) as of the end of each fiscal quarter ending after December 31, 2017 of not less than \$50 million. The credit agreement governing the New Senior Credit Facility also contains customary representations and warranties and events of default.

As of June 30, 2018 and December 31, 2017, we were in compliance with our financial maintenance covenants under the New Senior Credit Facility. We expect, based on current projections and estimates, to be in compliance with our covenants in the New Senior Credit Facility (including our financial maintenance covenants), and the covenants in the Second Lien Notes and the Cerberus 3L notes, further discussed below, for the next twelve months.

Second Lien Notes

On June 15, 2016, \$415.7 million principal amount of the 10.375% Senior Notes due 2017 (the "Senior Unsecured Notes") were exchanged for \$45.0 million cash and \$370.6 million aggregate principal amount of newly issued Second Lien Notes due November 30, 2020, which are governed by the terms of the indenture (the "Indenture"), among DynCorp International, Holdings, as parent guarantor, DynCorp International's subsidiaries that currently guarantee the New Senior Credit Facility, as subsidiary guarantors (the "Subsidiary Guarantors"), and Wilmington Trust, National Association, as trustee and collateral agent.

Interest on the Second Lien Notes accrues at the rate of 11.875% per annum, comprised of 10.375% per annum in cash and 1.500% per annum payable in kind ("PIK," and such interest "PIK Interest"). The cash portion of the interest on the Second Lien Notes is payable in cash and the PIK Interest on the Second Lien Notes is payable in kind, each semi-annually in arrears on January 1 and July 1, commencing on July 1, 2016.

During the three and six months ended June 30, 2018, PIK interest converted into the carrying amount of the Second Lien Notes was zero and \$2.8 million, respectively. During the three and six months ended June 30, 2017, PIK interest converted into the carrying amount of the Second Lien Notes was zero and \$2.8 million, respectively. PIK interest accrued on the Second Lien Notes was \$2.9 million and \$2.8 million as of June 30, 2018 and December 31, 2017, respectively.

Covenants and Events of Default

The Indenture contains a number of non-financial affirmative and negative covenants we believe are usual and customary. These covenants are subject to a number of important exceptions and qualifications as set forth in the Indenture. In addition, the Indenture required DynCorp International to make an amortization payment of \$22.5 million principal amount of the Term Loan under the New Senior Credit Facility no later than June 15, 2018, which amount was fully satisfied as a result of the Company's \$54.9 million excess cash flow payment discussed above.

The Indenture contains customary events of default, including for failure to pay other indebtedness in a total amount exceeding \$10.0 million after final maturity of such indebtedness.

Optional Redemption

On and after July 1, 2018, the Second Lien Notes are redeemable at the option of the Company, in whole or in part, at any time and from time to time, upon not less than 30 nor more than 60 days' prior notice, at the following redemption prices (expressed

as a percentage of the principal amount), plus accrued and unpaid cash interest, if any, together with an amount of cash equal to all accrued and unpaid PIK Interest to but excluding the redemption date:

Period	Redemption Price
July 1, 2018 through June 30, 2019	103.00%
July 1, 2019 and thereafter	100.00%

Cerberus 3L Notes

On June 15, 2016, DynCorp Funding LLC, a limited liability company managed by Cerberus Capital Management, L.P. ("Cerberus"), entered into a Third Lien Credit Agreement (the "Third Lien Credit Agreement") with us. Under the Third Lien Credit Agreement, DynCorp Funding LLC has made a \$30 million term loan to us (the "Cerberus 3L Notes"). The proceeds of the Cerberus 3L Notes were fully utilized and were restricted to pay fees and expenses (including reimbursement of out-of-pocket expenses) in support of or related to the Company's Global Advisory Group.

Interest Rate and Fees

The interest rate per annum applicable to the Cerberus 3L Notes is 5.00%, payable in kind on a quarterly basis. During the three and six months ended June 30, 2018, PIK interest converted into the carrying amount of the Cerberus 3L Notes was \$0.4 million and \$0.8 million, respectively. During the three and six months ended June 30, 2017, PIK interest converted into the carrying amount of the Cerberus 3L Notes was \$0.4 million and \$0.8 million, respectively.

Prepayments

The Cerberus 3L Notes do not require any mandatory prepayments, and, subject to the terms of the Intercreditor Agreement (as defined below), we are permitted to voluntarily repay outstanding loans under the Cerberus 3L Notes without premium or penalty. The New Senior Credit Facility and the Indenture governing the Second Lien Notes restrict us from making any principal payments on the Cerberus 3L Notes.

Maturity and Amortization

The Cerberus 3L Notes do not require any mandatory amortization payments prior to maturity and the outstanding principal amounts shall be payable on June 15, 2026.

Covenants and Events of Default

The Cerberus 3L Notes include non-financial affirmative and negative covenants consistent with the covenants set forth in the Second Lien Notes; provided that each "basket" or "cushion" set forth in the covenants is at least 25% less restrictive than the corresponding provision set forth in the Second Lien Notes. The Third Lien Credit Agreement contains customary events of default, including for failure to pay other debt in a total amount exceeding \$12.5 million after final maturity or acceleration of such indebtedness.

Intercreditor Agreement

The collateral granted to secure the indebtedness under the New Senior Credit Facility, on a first-priority basis, has also been granted to secure (a) the Second Lien Notes and the guarantees under the Indenture on a second-priority basis and (b) the Cerberus 3L Notes and the guarantees under the Third Lien Credit Agreement on a third-priority basis. The relative priority of the liens afforded to the New Senior Credit Facility, Second Lien Notes and Cerberus 3L Notes and the subordination in right of payment of the Cerberus 3L Notes to the New Senior Credit Facility and the Second Lien Notes are set forth in the Intercreditor Agreement (the "Intercreditor Agreement"), dated as of June 15, 2016, by and among the administrative agent under the New Senior Credit Facility, the collateral agent under the Indenture, and the collateral agent under the Third Lien Credit Agreement.

Debt Maturity Schedule

The following table represents our contractual maturity schedule associated with our debt as of June 30, 2018:

Calendar Years ⁽¹⁾

<i>(Amounts in thousands)</i>	2018	2019	2020	2021	2022	Thereafter	Total
11.875% senior secured second lien notes	\$ —	\$ —	\$ 381,849	\$ —	\$ —	\$ —	\$ 381,849
Term loan ⁽²⁾	—	—	127,343	—	—	—	127,343
Cerberus 3L notes	—	—	—	—	—	33,245	33,245
Total debt	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 509,192</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 33,245</u>	<u>\$ 542,437</u>

(1) As of June 30, 2018, there were no amounts outstanding under the Revolver.

(2) Excess cash flow principal payments are determined annually.

Note 9 — Commitments and Contingencies

Commitments

We have operating leases for the use of real estate and certain property and equipment which are either non-cancelable, cancelable only by the payment of penalties or cancelable upon one month's notice. All lease payments are based on the lapse of time. There are no purchase options on operating leases at favorable terms, but most leases have one or more renewal options. Certain real estate leases are subject to annual escalations for increases in base rents, utilities and property taxes. Lease rental expense was \$10.4 million and \$21.0 million for the three and six months ended June 30, 2018, respectively. Lease rental expense was \$11.4 million and \$21.2 million for the three and six months ended June 30, 2017, respectively. We have no significant long-term purchase agreements with service providers.

Contingencies

General Legal Matters

We are involved in various lawsuits and claims that arise in the normal course of business. We have established reserves for matters in which it is believed that losses are probable and can be reasonably estimated. Reserves related to these matters have been recorded in Other accrued liabilities totaling approximately \$4.8 million and \$9.2 million as of June 30, 2018 and December 31, 2017, respectively. We believe that appropriate accruals have been established for such matters based on information currently available; however, some of the matters may involve compensatory, punitive, or other claims or sanctions that, if granted, could require us to pay damages or make other expenditures in amounts that could not be reasonably estimated at June 30, 2018. These accrued reserves represent the best estimate of amounts believed to be our liability in a range of expected losses. In addition to matters that are considered probable and that can be reasonably estimated, we also have certain matters considered reasonably possible. Other than matters disclosed below, we believe the aggregate range of possible loss related to matters considered reasonably possible was not material as of June 30, 2018. Litigation is inherently unpredictable and unfavorable resolutions could occur. Accordingly, it is possible that an adverse outcome from such proceedings could (i) exceed the amounts accrued for probable matters; or (ii) require a reserve for a matter we did not originally believe to be probable or could be reasonably estimated. Such changes could be material to our financial condition, results of operations and cash flows in any particular reporting period. Our view of the matters not specifically disclosed could possibly change in future periods as events thereto unfold.

Pending Litigation and Claims

In October 2007, we entered into a subcontract with Northrop Grumman Technical Services, Inc. ("Northrop") to support Northrop's prime contract with the DoD Counter Narcotics Terrorism Program Office ("CNTPO"). We performed the services requested by Northrop, the government determined that it received "intended quality and skills of personnel," and Northrop paid our invoices until July 2014. Subsequent to July 2014, Northrop stopped paying our periodic invoices. The contract operations ended on December 31, 2014. In March 2015, Northrop filed a civil action against us to obtain documents regarding our invoices and now asserts approximately \$5.0 million in damages. We believe the damages asserted by Northrop represent a loss contingency that is remote. In September 2015, we filed an Answer and Counterclaim seeking approximately \$41.0 million for unpaid invoices. We have collected a portion of these funds and we continue to seek payment on the remaining balance.

On February 24, 2012, we were advised by the Department of Justice Civil Litigation Division (the "Civil Division") that they are conducting an investigation regarding the CivPol and Department of State Advisor Support Mission ("DASM") contracts in Iraq and Corporate Bank, a former subcontractor. The issues include allowable hours worked under a specific task order and invoices to the Department of State for certain hotel leasing, labor rates and overhead within the 2003 to 2008 timeframe. Since 2012, the Company has been in discussions with the Civil Division, and has been cooperating with the Civil Division's requests for information. On July 19, 2016, the Civil Division filed a civil lawsuit asserting violations of underlying contract terms and also the False Claims Act. If our operations are found to be in violation of any laws or government regulations, we may be subject to penalties, damages or fines, any or all of which could adversely affect our financial results; however, the complaint does not

include any specific monetary demand and as such we are unable to estimate a range of loss at this time. We are continuing to evaluate this lawsuit and at this time believe the potential for penalties, damages or fines resulting from this matter do not represent a probable loss contingency.

U.S. Government Investigations

We primarily sell our services to the U.S. government. These contracts are subject to extensive legal and regulatory requirements, and we are occasionally the subject of investigations by various agencies of the U.S. government who investigate whether our operations are being conducted in accordance with these requirements. Such investigations could result in administrative, civil or criminal liabilities, including repayments, fines or penalties being imposed on us, or could lead to suspension or debarment from future U.S. government contracting. U.S. government investigations often take years to complete and may result in adverse action against us. We believe that any adverse actions arising from such matters could have a material effect on our ability to invoice and receive timely payment on our contracts, perform contracts or compete for contracts with the U.S. government and could have a material effect on our operating performance.

U.S. Government Audits

Our contracts are regularly audited by the Defense Contract Audit Agency ("DCAA") and other government agencies. These agencies review our contract performance, cost structure and compliance with applicable laws, regulations and standards. The government also reviews the adequacy of, and our compliance with, our internal control systems and policies, including our purchasing, property, estimating, accounting and material management business systems. Any costs found to be improperly allocated to a specific contract will not be reimbursed. The DCAA will in some cases issue a Form 1 representing the non-conformance of such costs or requirements as it relates to our government contracts. If we are unable to provide sufficient evidence of the costs in question, the costs could be suspended or disallowed which could be material to our financial statements. Government contract payments received by us for direct and indirect costs are subject to adjustment after government audit and repayment to the government if the payments exceed allowable costs as defined in the government regulations.

We have received a series of audit reports from the DCAA related to their examination of certain incurred, invoiced and reimbursed costs on the Logistics Civil Augmentation Program IV ("LOGCAP IV") for contract years 2009 to 2016. For contract years 2009 to 2012, through our negotiation efforts with the Contracting Officer the issues have been resolved, resulting in final settlements of all audited costs of approximately \$0.8 million of questioned costs. For contract years 2013 and 2014, we have received DCAA's final audit report, which questions approximately \$3.9 million of costs. We are in discussion with the Contracting Officer and we believe that the settlement of these outstanding amounts will not be material to our financial statements. Additionally, the DCAA has recently completed its audit of contract years 2015 and 2016, and LOGCAP IV had no questioned contract costs.

Foreign Contingencies

On January 22, 2014, a tax assessment from the Large Tax Office of the Afghanistan Ministry of Finance ("MOF") was received, seeking approximately \$64.2 million in taxes and penalties specific to one of our business licenses in Afghanistan for periods between 2009 to 2012. The majority of this assessment was income tax related; however, \$10.2 million of the assessed amount is non-income tax related and represents loss contingencies that we consider reasonably possible. We filed our initial appeal of the assessment with the MOF on February 19, 2014. In May 2014, the MOF ruled in our favor for the income tax related issue which totaled approximately \$54.0 million. We are still working with the MOF to remove the assessment on the remaining non-income tax related items. As of June 30, 2018, we are continuing to evaluate this matter and at this time believe it does not represent a probable loss contingency.

Credit Risk

We are subject to concentrations of credit risk primarily by virtue of our accounts receivable. Departments and agencies of the U.S. federal government account for all but minor portions of our customer base, minimizing this credit risk. Furthermore, the significance of any one contract can change as our business expands or contracts. Additionally, as contract modifications, contract extensions or other contract actions occur, the profitability of any one contract can become more or less significant to the Company. As contracts are recompeted, there is the potential for the size, contract type, contract structure or other contract elements to materially change from the original contract resulting in significant changes to the scope, scale, profitability or magnitude of accounts receivable of the new recompeted contract as compared to the original contract. We continuously review all accounts receivable and record provisions for doubtful accounts when necessary.

Risk Management Liabilities and Reserves

We are insured for domestic workers' compensation liabilities and a significant portion of our employee medical costs. However, we bear risk for a portion of claims pursuant to the terms of the applicable insurance contracts. We account for these programs based on actuarial estimates of the amount of loss inherent in that period's claims, including losses for which claims have not been

reported of \$7.3 million and \$7.7 million as of June 30, 2018 and December 31, 2017, respectively. These loss estimates rely on actuarial observations of ultimate loss experience for similar historical events. We limit our risk by purchasing stop-loss insurance policies for significant claims incurred for both domestic workers' compensation liabilities and medical costs. Our exposure under the stop-loss policies for domestic workers' compensation and medical costs is limited based on fixed dollar amounts. For domestic workers' compensation and employers' liability under state and federal law, the fixed dollar amount of stop-loss coverage is \$1.0 million per occurrence on most policies, but is \$0.25 million per occurrence on a California-based policy. For medical costs, the fixed dollar amount of stop-loss coverage is \$0.4 million for total costs per covered participant per calendar year.

Note 10 — Segment Information

In January 2018, the Company amended its organizational structure. The Company's previous three operating and reporting segments, AELS, AOLC and DynLogistics, were re-aligned into two operating and reporting segments by combining AELS and AOLC into DynAviation with DynLogistics continuing to operate as a separate segment. The DynAviation and DynLogistics segments operate principally within a regulatory environment subject to governmental contracting and accounting requirements, including Federal Acquisition Regulations, Cost Accounting Standards and audits by various U.S. federal agencies.

The following is a summary of the financial information of the reportable segments reconciled to the amounts reported in the condensed consolidated financial statements:

<i>(Amounts in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Revenue				
DynAviation	\$ 297,454	\$ 290,274	\$ 614,686	\$ 578,221
DynLogistics	251,246	183,624	468,770	355,982
Headquarters / Other ⁽¹⁾	1,661	390	1,198	(44)
Total revenue	<u>\$ 550,361</u>	<u>\$ 474,288</u>	<u>\$ 1,084,654</u>	<u>\$ 934,159</u>
Operating income (loss)				
DynAviation	\$ 25,282	\$ 20,700	\$ 51,216	\$ 39,645
DynLogistics	28,896	23,799	48,202	41,299
Headquarters / Other ⁽²⁾	(10,837)	(15,610)	(18,576)	(31,891)
Total operating income (loss)	<u>\$ 43,341</u>	<u>\$ 28,889</u>	<u>\$ 80,842</u>	<u>\$ 49,053</u>
Depreciation and amortization				
DynAviation	\$ 287	\$ 325	\$ 785	\$ 614
DynLogistics	652	197	1,068	336
Headquarters / Other	5,962	8,505	11,868	16,975
Total depreciation and amortization ⁽³⁾	<u>\$ 6,901</u>	<u>\$ 9,027</u>	<u>\$ 13,721</u>	<u>\$ 17,925</u>

(1) Headquarters revenue primarily represents revenue earned on shared services arrangements for general and administrative services provided to unconsolidated joint ventures and elimination of intercompany items between segments.

(2) Headquarters operating expenses primarily relate to amortization of intangible assets and other costs that are not allocated to segments and are not billable to our U.S. government customers and Global Advisory Group costs, partially offset by equity method investee income.

(3) Includes amounts included in Cost of services of \$0.9 million and \$1.7 million and for the three and six months ended June 30, 2018, respectively, and \$0.4 million and \$0.8 million for the three and six months ended June 30, 2017, respectively.

The following is a summary of the assets of the reportable segments reconciled to the amounts reported in the consolidated financial statements:

<i>(Amounts in thousands)</i>	As Of	
	June 30, 2018	December 31, 2017
Assets		
DynAviation	\$ 239,338	\$ 244,231
DynLogistics	197,744	243,281
Headquarters / Other ⁽¹⁾	285,792	248,205
Total assets	<u>\$ 722,874</u>	<u>\$ 735,717</u>

(1) Assets primarily include cash, investments in unconsolidated subsidiaries, and intangible assets (excluding goodwill).

Note 11 — Related Parties, Joint Ventures and Variable Interest Entities

Consulting Fee

We have a Master Consulting and Advisory Services agreement ("COAC Agreement") with Cerberus Operations and Advisory Company, LLC ("COAC") where, pursuant to the terms of the agreement, they make personnel available to us for the purpose of providing reasonably requested business advisory services. The services are priced on a case by case basis depending on the requirements of the project and agreements in pricing. We incurred \$0.1 million and \$0.2 million of consulting fees on a gross basis before considering the effect of our contract mix which provides for partial recovery in conjunction with the COAC Agreement, during the three and six months ended June 30, 2018, respectively, and \$1.2 million and \$2.5 million during the three and six months ended June 30, 2017, respectively.

The New Senior Credit Facility permits payments under the COAC Agreement or any transaction contemplated thereby not to exceed \$6.0 million per fiscal year with respect to executives seconded from COAC and personnel of COAC that provide services to us at cost on a weekly, monthly or pro-rated basis.

Certain members of executive management and board members of the Company and seconded COAC individuals may have agreements and conduct business with Cerberus and its affiliates for which they receive compensation. We recognize such compensation as an administrative expense in the consolidated financial statements.

Joint Ventures and Variable Interest Entities

We account for our investments in variable interest entities ("VIEs") in accordance with ASC 810 - *Consolidation*. In cases where we have (i) the power to direct the activities of the VIE that most significantly impact its economic performance and (ii) the obligation to absorb losses of the VIE that could potentially be significant or the right to receive benefits from the entity that could potentially be significant to the VIE, we consolidate the entity. We consolidated DynCorp International FZ - LLC ("DIFZ") based on the aforementioned criteria. Alternatively, in cases where all of the aforementioned criteria are not met, the investment is accounted for under the equity method. As of June 30, 2018, we accounted for Partnership for Temporary Housing LLC ("PaTH") and Global Linguist Solutions ("GLS") as equity method investments. We present our share of the PaTH and GLS earnings in Earnings from equity method investees as these joint ventures are considered operationally integral.

Receivables due from our unconsolidated joint ventures totaled \$0.1 million as of both June 30, 2018 and December 31, 2017. These receivables are a result of items purchased and services rendered by us on behalf of our unconsolidated joint ventures. We have assessed these receivables as having minimal collection risk based on our historic experience with these joint ventures and our inherent influence through our ownership interest. Payables due to our unconsolidated joint ventures totaled \$2.6 million and zero as of June 30, 2018 and December 31, 2017, respectively.

We did not incur cost or earn revenue from services provided to our unconsolidated joint ventures during the three and six months ended June 30, 2018. We recognized \$0.2 million and \$0.4 million in cost of services and did not earn revenue from our unconsolidated joint ventures during the three and six months ended June 30, 2017, respectively. Additionally, we earned \$0.2 million and \$0.3 million in equity method income (includes operationally integral and non-integral income) during the three and six months ended June 30, 2018 and \$0.0 million and \$0.1 million in equity method income during the three and six months ended June 30, 2017, respectively.

GLS' revenue was \$13.2 million and \$25.9 million during the three and six months ended June 30, 2018, respectively, and \$8.0 million and \$15.9 million during the three and six months ended June 30, 2017. GLS' operating and net income was \$1.3 million and \$2.0 million during the three and six months ended June 30, 2018, and GLS' operating and net loss was \$1.4 million and \$2.5 million during the three and six months ended June 30, 2017, respectively.

We currently hold one promissory note included in Other assets on our consolidated balance sheet from Palm Trading Investment Corp, which had an aggregate initial value of \$9.2 million. The loan balance outstanding was \$1.9 million and \$2.0 million as of June 30, 2018 and December 31, 2017, respectively, reflecting the initial value plus accrued interest, less non-cash dividend payments against the promissory note. The fair value of the note receivable is not materially different from its carrying value.

As discussed above and in accordance with ASC 810 - *Consolidation*, we consolidate DIFZ. The following tables present selected financial information for DIFZ as of June 30, 2018 and December 31, 2017 and for the three and six months ended June 30, 2018 and June 30, 2017:

<i>(Amounts in millions)</i>	As Of	
	June 30, 2018	December 31, 2017
Assets	\$ 3.8	\$ 4.5
Liabilities	0.7	0.9

<i>(Amounts in millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Revenue	\$ 43.1	\$ 43.6	\$ 85.3	\$ 84.5

The following tables present selected financial information for our equity method investees as of June 30, 2018 and December 31, 2017 and for the three and six months ended June 30, 2018 and June 30, 2017:

<i>(Amounts in millions)</i>	As Of	
	June 30, 2018	December 31, 2017
Current assets	\$ 19.4	\$ 28.2
Total assets	19.4	28.2
Current liabilities	7.9	11.6
Total liabilities	7.9	11.6

<i>(Amounts in millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Revenue	\$ 14.7	\$ 8.3	\$ 29.3	\$ 16.6
Gross profit (loss)	1.8	(1.2)	2.8	(2.9)
Net income (loss)	1.8	(1.2)	2.8	(2.7)

Many of our joint ventures and VIEs only perform on a single contract. The modification or termination of a contract under a joint venture or VIE could trigger an impairment in the fair value of our investment in these entities. In the aggregate, our maximum exposure to losses as a result of our investment consists of our (i) \$2.2 million investment in unconsolidated joint ventures, (ii) \$0.1 million in receivables from our unconsolidated joint ventures, (iii) \$1.9 million note receivable from Palm Trading Investment Corp. and (iv) contingent liabilities that were neither probable nor reasonably estimable as of June 30, 2018.

Note 12 — Consolidating Financial Statements of Subsidiary Guarantors

The Second Lien Notes issued by DynCorp International Inc. ("Subsidiary Issuer"), the New Senior Credit Facility and the term loan under the Third Lien Credit Agreement are fully and unconditionally guaranteed, jointly and severally, by the Company ("Parent") and the following domestic subsidiaries of Subsidiary Issuer: DynCorp International LLC, DTS Aviation Services LLC, DynCorp Aerospace Operations LLC, DynCorp International Services LLC, DIV Capital Corporation, Dyn Marine Services of Virginia LLC, Services International LLC, Worldwide Management and Consulting Services LLC, Worldwide Recruiting and Staffing Services LLC, Heliworks LLC, Phoenix Consulting Group, LLC, Casals & Associates, Inc., Culpeper National Security Solutions LLC, and Highground Global, Inc. ("Subsidiary Guarantors"). Each of the Subsidiary Issuer and the Subsidiary Guarantors is 100% owned by the Company. Under the Indenture governing the Second Lien Notes, a guarantee of a Subsidiary Guarantor would terminate upon the following customary circumstances: (i) the sale of the capital stock of such Subsidiary Guarantor if such sale complies with the indenture; (ii) the designation of such Subsidiary Guarantor as an unrestricted subsidiary; (iii) if such Subsidiary Guarantor no longer guarantees certain other indebtedness of the Subsidiary Issuer or (iv) the defeasance or discharge of the indenture.

The following condensed consolidating financial statements present (i) unaudited condensed consolidating balance sheets as of June 30, 2018 and December 31, 2017, (ii) unaudited condensed consolidating statements of operations and comprehensive income for the three and six months ended June 30, 2018 and June 30, 2017, (iii) unaudited condensed consolidating statements of cash flows for the six months ended June 30, 2018 and June 30, 2017 and (iii) elimination entries necessary to consolidate Parent and its subsidiaries.

The Parent company, the Subsidiary Issuer, the combined Subsidiary Guarantors and the combined subsidiary non-guarantors account for their investments in subsidiaries using the equity method of accounting; therefore, the Parent column reflects the equity income of the subsidiary and its subsidiary guarantors, and subsidiary non-guarantors. Additionally, the Subsidiary Guarantors' column reflects the equity income of its subsidiary non-guarantors.

DynCorp International Inc. is considered the Subsidiary Issuer as it issued the Second Lien Notes.

Note 13 — Subsequent Events

The Company evaluated potential subsequent events occurring after the period end date through the date the financial statements were issued and concluded that there were no material subsequent events for the quarter ended June 30, 2018, except as disclosed within the Notes to the unaudited condensed consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of our unaudited condensed consolidated financial condition and results of operations should be read in conjunction with the Delta Tucker Holdings, Inc. unaudited condensed consolidated financial statements, and the notes thereto, and other data contained elsewhere in this Quarterly Report on Form 10-Q. The following discussion and analysis should also be read in conjunction with our audited consolidated financial statements, and notes thereto, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2017. In addition, please see "Disclosure Regarding Forward-Looking Information" for a discussion of the risks, uncertainties and assumptions associated with these statements. References to "Delta Tucker Holdings", the "Company", "we", "our" or "us" refer to Delta Tucker Holdings, Inc. and its subsidiaries unless otherwise stated or indicated by context.

Company Overview

We are a leading global services provider offering unique, tailored solutions for an ever-changing world. Built on approximately seven decades of experience as a trusted partner to commercial, government and military customers, we provide sophisticated aviation solutions, law enforcement training and support, base and logistics operations, intelligence training, rule of law development, construction management, international development, ground vehicle support, counter-narcotics aviation, platform services and operations and linguist services. Our current customers include the U.S. Department of Defense ("DoD"), the U.S. Department of State ("DoS"), the U.S. Agency for International Development ("USAID"), foreign governments, commercial customers and certain other U.S. federal, state and local government departments and agencies.

Reportable Segments

In January 2018, the Company amended its organizational structure. The Company's previous three operating and reporting segments, AELS, AOLC and DynLogistics, were re-aligned into two operating and reporting segments by combining AELS and AOLC into DynAviation with DynLogistics continuing to operate as a separate segment. Our segments provide services domestically and internationally primarily under contracts with the U.S. government.

DynAviation

This segment provides aircraft operations and logistics services to include modernization and refurbishments, upgrades and sustainment, and maintenance and support for key military, government and commercial customers worldwide. DynAviation also provides the technical information and expertise to manage large fleets and bases and delivers engineering and maintenance services to help keep operations running effectively. The INL Air Wing, Theater Aviation Sustainment Manager - OCONUS ("TASM-O") and Contractor Logistics Support: T-34, T-44, T-6 ("CLS T34/44/6") programs are three of the most significant programs in the DynAviation segment. The TASM-O program provides aviation maintenance services under the Army Aviation Field Maintenance ("AFM") program. Our CLS T34/44/6 program provide maintenance and logistics support to the U.S. Navy T-34, T-44, and T-6 aircraft. Our T-6 Contractor Operated and Maintained Base Supply ("T-6 COMBS") Bridge contract also contributed significantly during the three and six months ended June 30, 2018.

The INL Air Wing program supports governments in multiple Latin American countries and provides support and assistance with interdiction services in Afghanistan. This program also provides intra-theater transportation services for DoS personnel throughout Iraq and Afghanistan. On September 1, 2016, we were notified that the DoS had awarded the re-compete of the INL Air Wing contract to another company. On September 11, 2016, we filed a protest with the GAO challenging the DoS agency's award determination. On September 27, 2016, DynAviation finalized negotiations with the DoS Office of Acquisition Management regarding an extension of services on the INL Air Wing program and definitized an agreement for a one-year extension through October 31, 2017. On December 21, 2016, we were notified that the GAO denied our protest of the DoS agency's award determination of the INL Air Wing contract to another company. On September 29, 2017, DynAviation finalized negotiations with the DoS Office of Acquisition Management regarding an extension of services for several locations on the INL Air Wing program and definitized an agreement for a six-month extension through April 30, 2018. On October 31, 2017, the U.S. Court of Federal Claims issued a ruling dismissing our protest on the re-compete of the INL Air Wing contract. On November 14, 2017, we appealed that decision to the U.S. Court of Appeals for the Federal Circuit, which remains pending. In May 2018, DynAviation announced its final extension on the INL Air Wing program, which it completed on June 30, 2018.

This segment provides best-value mission readiness to its customers through total support solutions including conventional and contingency logistics, operations and maintenance support, platform modification and upgrades, supply chain management and training, security and full spectrum intelligence mission support services. DynLogistics supports U.S. foreign policy and international development priorities by assisting in the development of stable and democratic governments, implementing anti-corruption initiatives and aiding the growth of democratic public and civil institutions. This segment also provides base operations support, engineering, supply and logistics, pre-positioned war reserve materials, facilities, marine maintenance services, program management services primarily for ground vehicles and contingency response on a worldwide basis. These services are provided to U.S. government agencies in both domestic and foreign locations, foreign government entities and commercial customers.

The Logistics Civil Augmentation Program IV ("LOGCAP IV") and War Reserve Material III ("WRM III") contracts are the most significant contracts within this segment. Under the LOGCAP IV program, which we perform under a single IDIQ contract, the U.S. Army contracts for us to perform selected services, operations and maintenance, engineering as well as construction and logistics predominately in the Middle East Theater to augment the U.S. Army, the U.S. Marine Corps and North Atlantic Treaty Organization ("NATO") forces and to release military units from combat service support missions or to fill the U.S. military resource shortfalls. Under the WRM III contract, the U.S. Air Force contracts the Company to perform, outload and reconstitute the prepositioned war reserve materiel in the U.S. Air Force Central Command Area of Responsibility as well as maintenance services on ground support equipment vehicles.

Current Operating Environment and Outlook

The following discussion is a supplement to and should be read in conjunction with the accompanying unaudited financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and with our Annual Report on Form 10-K for the year ended December 31, 2017.

External Factors

Our business is primarily derived from U.S. government contracts to support U.S. national security and foreign policy objectives around the globe. Therefore, federal budgets and spending for these activities, as well as the alignment of capabilities with policy priorities, guide our ability to grow the business. In February, the Bipartisan Budget Act of 2018 became law. The two-year budget agreement significantly increased defense spending in fiscal years 2018 and 2019. Specifically, the Bipartisan Budget Act of 2018 increased the defense spending caps mandated by the Budget Control Act of 2011 by \$80 billion in fiscal year 2018 and \$85 billion in fiscal year 2019. The new budget agreement provides near-term clarity and stability which sustains the current positive business environment and projected growth for the defense services sector.

In fiscal year 2018 national defense spending will be approximately \$700 billion, which represents a 5% increase over the original President's Budget Request. Funding for Operations & Maintenance activities increased by approximately 10% over fiscal year 2017. For fiscal year 2019, the President's Budget Request for defense is \$716 billion which also aligns with the new budget agreement and shows compounding increases in defense budgets. Currently, Congress is considering growing the Operations and Maintenance appropriations by roughly 3% over fiscal year 2018. This reflects the ongoing and enduring focus on recapturing current combat readiness and building future readiness capabilities.

Growth in the defense budget combined with the prioritization of readiness and ongoing operations aligns with our core offerings and favors continued growth. However, U.S. policy and budget decisions do not exist in a vacuum, and global events shape adjustments to policies, as well as the funding levels and mechanisms to support these shifts. External factors influencing the industry continue to include:

- Disruptions to funding caused by a government shutdown or a continuing resolution;
- Increased competition and opportunity caused by IDIQs and other bidding trends;
- Readiness-driven requirements to maintain and sustain equipment;
- Troop levels and tempo of operations in Afghanistan;
- Conflicts in Iraq, Syria and the wider Middle East;
- North Korea's nuclear program and challenging behavior; and
- Russian aggression in Europe and the Middle East.

Legislatively, the industry is encouraged that Congress will be able to agree on final fiscal year appropriations for the expiration of the current continuing resolution allowing government customers to accelerate contracting activity. Internationally, the new strategy in Afghanistan increased the U.S. footprint and related operational tempo, which also requires equivalent contractor

support services. In addition to Afghanistan, the wider geopolitical environment, especially in the Middle East and the Korean peninsula, will likely be marked by continued instability for the foreseeable future which argues for continued robust OCO funding.

We believe the following longer-term industry trends demonstrate the continued demand for the types of services we provide:

- Realignment of the military force structure, leading to increased outsourcing of non-combat functions, including life cycle;
- Asset management of equipment ranging from operational, immediate and depot-level maintenance;
- Requirement to maintain, overhaul and upgrade for returning rolling stocks and aging platforms;
- Sustain and support forward-deployed rotational troops and equipment; and
- Growth in outsourcing by foreign allies of maintenance, supply-support, facilities management, infrastructure upgrades, and construction management related services.

Current Business Environment

Our contract vehicles typically have a base period with multiple option periods. The majority of these periods are for a term of one year, as the contract duration is the period over which the parties have present enforceable rights. We also have a strong history of being awarded a majority of the contract options. Furthermore, the significance of any one contract can change as our business expands or contracts. Additionally, as contract modifications, contract extensions or other contract actions occur, the profitability of any one contract can become more or less significant to the Company. As contracts are re-competed, there is the potential for the size, contract type, contract structure or other contract elements to materially change from the original contract resulting in significant changes to the scope, scale, profitability or magnitude of accounts receivable of the new re-competed contract as compared to the original contract.

Since our primary customer is the U.S. federal government, we have not historically had significant issues with bad debt. However, given the continued scrutiny by the U.S. government, we could be subjected to regulatory requirements that could require audits at various points within our contracting process. An adverse finding under an audit could result in the disallowance of costs under a U.S. government contract, termination of a U.S. government contract, forfeiture of profits or suspension of payments, which could prove to be impactful to our liquidity, affect our ability to invoice and receive timely payment on our contracts, perform contracts or compete for contracts with the U.S. government. Disapproval of our control systems could result in an adverse outcome.

We cannot be certain that the economic environment or other factors will not continue to adversely impact our business, financial condition or results of operations in the future. We believe that our primary sources of liquidity, such as customer collections and the New Senior Credit Facility, will enable us to continue to perform under our existing contracts and support further growth of our business. However, adverse conditions, such as a long term credit crisis or sequestration, could adversely affect our ability to obtain additional liquidity or refinance existing indebtedness at acceptable terms or at all.

Notable Events for the six months ended June 30, 2018 and to date

- In January 2018, the Company changed its three operating and reporting segments, DynLogistics, AELS and AOLC, to two operating and reporting segments: DynLogistics and DynAviation.
- In February 2018, DynLogistics announced the award of a contract extension from the United States Army Contracting Command to provide advisory, training and mentoring services to the Afghanistan Ministry of Defense. The extension has a one-year base period with a total potential value of \$54.2 million and two two-month options.
- In February 2018, DynLogistics announced the award of a contract extension from the United States Army Contracting Command to provide advisory, training and mentoring services to the Afghanistan Ministry of Interior. The extension has a one-year base period with a total potential value of \$67.2 million and two two-month options.
- On March 7, 2018, DynLogistics announced the award of a contract modification to support the U.S. Army Garrison-Kwajalein Atoll ("USAG-KA") on the U.S. Army Pacific Command ("PACOM") task order under the LOGCAP IV contract. The modification has a period of performance from March 1, 2018 to September 12, 2018 and a total potential value of \$45.6 million.
- On March 21, 2018, we made an additional principal payment of \$54.9 million under the Excess Cash Flow requirement which satisfied the June 15, 2018 \$22.5 million principal payment requirement on the Term Loan.
- In March 2018, DynLogistics announced the award of the third option year on the Food Services task order under the ALiSS contract. The task order has a one-year period of performance with a total potential task order value of \$76.5 million.
- In March 2018, DynAviation announced the award of the Contract Field Teams ("CFT") task order re-compete at the Davis-Monthan Air Force Base in Tucson, Arizona to provide maintenance on the 357th Aircraft Maintenance Unit's A-10 Thunderbolt aircraft. The re-compete has a one-year base period and one one-year option and a total potential value of \$46.2 million.
- In March 2018 and April 2018, DynLogistics announced a contract extension and expansion, respectively, to support material management and logistics services for the U.S. Army Corps of Engineers' ("USACE") South Atlantic Division, Task Force Power Restoration in Puerto Rico on the Northcom task order under the LOGCAP IV contract. The extension and expansion has a total potential value of \$24.9 million.
- In March 2018, DynLogistics announced the award of the Camp Eggers Support Services task order under the ALiSS contract. The task order has a one-year base period and two one-year option periods and a total potential task order value of \$13.4 million.
- In April 2018, DynAviation was one of multiple Large Company Awardees on the Worldwide Contractor Logistics Support ("WLSS-C") IDIQ contract from the U.S. Army. The suite of multiple-award IDIQ contracts has a five-year base and one five-year option with a total potential contract value of \$25.5 billion.
- In April 2018, DynAviation announced the award of a contract extension on the T-6 Contractor Operated and Maintained Base Supply Bridge Contract ("T-6 COMBS Bridge") from May 1, 2018 to August 31, 2018 with a total potential value of \$59.6 million. In July 2018, DynAviation announced an extension on the T-6 COMBS Bridge contract from August 31, 2018 to September 30, 2018 with a total potential value of \$14.9 million.
- In April 2018, DynLogistics announced a task order modification for expanded work to continue providing base life support and maintenance services in Afghanistan under the LOGCAP IV contract. The contract modification has a total potential value of \$24.4 million.
- In May 2018, DynAviation announced an extension on the INL Air Wing program through June 30, 2018 with a total potential value of \$14.0 million.
- In June 2018, DynLogistics announced the award of a twelve-month task order contract extension to continue providing base life support and maintenance services in Afghanistan under the LOGCAP IV contract. The contract extension has a total potential value of \$258.3 million.
- In June 2018, DynLogistics announced the award of the Facilities Engineering Support Services task order under the ALiSS contract. The task order has a one-year base period and four one-year option periods and a total potential task order value of \$28.1 million.
- In June 2018, DynLogistics announced the task order award under the Air Force Augmentation Program ("AFCAP IV") to provide dining facility services for the Al Dhafra Air Base in the UAE. The task order has a two-month mobility period, a ten-month base period and two one-year option periods and a total potential task order value of \$11.5 million.

- In July 2018, DynLogistics announced a contract modification to support material management and logistics services for the USACE South Atlantic Division, Task Force Power Restoration in Puerto Rico on the Northcom task order under the LOGCAP IV contract. The contract modification has a total potential value of \$24.6 million.

Contract Types

Our business generally is performed under fixed-price, time-and-materials or cost-reimbursement contracts. Each of these is described below.

- **Fixed-Price Type Contracts:** In a fixed-price contract, the price is generally not subject to adjustment based on costs incurred, which can favorably or adversely impact our profitability depending upon our execution in performing the contracted service. Our fixed-price contracts may include firm fixed-price, fixed-price with economic adjustment, and fixed-price incentive elements.
- **Time-and-Materials Type Contracts:** Time-and-materials type contracts provide for acquiring supplies or services on the basis of direct labor hours at fixed hourly/daily rates plus materials at cost.
- **Cost-Reimbursement Type Contracts:** Cost-reimbursement type contracts provide for payment of allowable incurred costs, to the extent prescribed in the contract, plus a fixed-fee, award-fee, incentive-fee or a combination thereof. Award-fees or incentive-fees are generally based upon various objective and subjective criteria, such as aircraft mission capability rates and meeting cost targets. Award and incentive fees are excluded from estimated total contract revenue until a reasonably determinable estimate of award and incentive fees can be made.

A single contract may be performed under one or more of the contracts types discussed above. Any of these three types of contracts may be executed under an IDIQ contract, which are often awarded to multiple contractors. An IDIQ contract does not represent a firm order for services. Our Afghanistan Life Support Services ("ALiSS") and LOGCAP IV programs are examples of IDIQ contracts. When a customer wishes to order services under an IDIQ contract, the customer issues a task order request for proposal to the contractor awardees. The contract awardees then submit proposals to the customer and task orders are typically awarded under a best-value approach. However, many IDIQ contracts permit the customer to direct work to a particular contractor.

Our historical contract mix by type, as a percentage of revenue, is indicated in the table below.

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Fixed-Price	36%	41%	38%	43%
Time-and-Materials	4%	5%	4%	5%
Cost-Reimbursement	60%	54%	58%	52%
Total	100%	100%	100%	100%

Cost-reimbursement type contracts typically perform at lower margins than other contract types but carry lower risk of loss. We anticipate cost-reimbursement and fixed-price type contracts will continue to represent a majority of our business for the remainder of calendar year 2018. The contract type indicated in the table above does not necessarily represent fixed or variable consideration under ASU No. 2014-09, *Revenue from Contracts with Customers* (Topic 606).

Under many of our contracts, we may rely on subcontractors to perform all or a portion of the services we are obligated to provide to our customers. We use subcontractors primarily for specialized, technical labor and certain functions such as construction and catering. We often enter into subcontract arrangements in order to meet government requirements that certain categories of services be awarded to small businesses.

The following table sets forth our historical role as a prime and subcontractor, as a percentage of revenue.

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Prime Contractor	97%	95%	97%	95%
Subcontractor	3%	5%	3%	5%
Total	100%	100%	100%	100%

Backlog

We track backlog in order to assess our current business development effectiveness and to assist us in forecasting our future business needs and financial performance. Our backlog consists of funded and unfunded amounts under contracts and does not include contracts under protest. Funded backlog is equal to the amounts actually appropriated by a customer for payment of goods and services less actual revenue recognized as of the measurement date under that appropriation. Unfunded backlog is the actual dollar value of unexercised, priced contract options and the unfunded portion of exercised contract options. These priced options may or may not be exercised at the sole discretion of the customer. Unfunded backlog does not include future potential task orders expected to be awarded under IDIQ or other master agreement contract vehicles.

Firm funding for our contracts is usually made for one year at a time, with the remainder of the contract period consisting of a series of one-year options. As is the case with the base period of our U.S. government contracts, option periods are subject to the availability of funding for contract performance. Most of our U.S. government contracts allow the customer the option to extend the period of performance of a contract for a period of one or more years.

The following table sets forth our approximate backlog as of the dates indicated:

<i>(Amounts in millions)</i>	As Of	
	June 30, 2018	December 31, 2017
Funded backlog	\$ 981	\$ 968
Unfunded backlog	3,021	3,201
Total	\$ 4,002	\$ 4,169

The decrease in backlog as of June 30, 2018 was primarily due to revenue outpacing orders during the six months ended June 30, 2018.

We expect to recognize a substantial portion of our funded backlog as revenues within the next 12 months. However, the U.S. Government may cancel certain contracts through a termination for the convenience of the U.S. Government. Certain commercial or non-U.S. Government contracts may include provisions that allow the customer to cancel prior to the completion of the contract, however, most of our contracts have cancellation terms that would permit us to recover all or a portion of our incurred costs and fees for work performed.

Results of Operations

Consolidated Three Months Ended June 30, 2018 compared to the Three Months Ended June 30, 2017

Starting with this first quarter of calendar year 2018, we report the results of our operations using a basis where each quarterly period ends on the last day of the calendar quarter. This change will be made on a prospective basis and operating results for prior quarterly periods will not be adjusted. The following tables set forth our unaudited consolidated results of operations, both in dollars and as a percentage of revenue, for the three months ended June 30, 2018 and June 30, 2017.

(Amounts in thousands)	Three Months Ended			
	June 30, 2018		June 30, 2017	
Revenue	\$ 550,361	100.0 %	\$ 474,288	100.0 %
Cost of services	(476,598)	(86.6)	(409,652)	(86.4)
Selling, general and administrative expenses	(24,670)	(4.5)	(27,168)	(5.7)
Depreciation and amortization expense	(5,974)	(1.1)	(8,589)	(1.8)
Earnings from equity method investees	222	—	10	—
Operating income	43,341	7.8	28,889	6.1
Interest expense	(16,083)	(2.9)	(17,764)	(3.7)
Loss on early extinguishment of debt	—	—	(24)	—
Interest income	408	0.1	19	—
Other income, net	492	0.1	144	—
Income before income taxes	28,158	5.1	11,264	2.4
Provision for income taxes	(3,140)	(0.6)	(5,300)	(1.1)
Net income	25,018	4.5	5,964	1.3
Noncontrolling interests	(209)	—	(288)	(0.1)
Net income attributable to Delta Tucker Holdings, Inc.	\$ 24,809	4.5	\$ 5,676	1.2

Revenue — Revenue for the three months ended June 30, 2018 was \$550.4 million, an increase of \$76.1 million, or 16.0%, compared to \$474.3 million for the three months ended June 30, 2017. The increase was primarily due to increased scope on the LOGCAP IV program and the CLS Transport, Naval Test Wing Pacific O-Level Maintenance ("Naval Test Wing Pacific") and the G4 Worldwide Logistics Support contracts. The increase in revenue was partially offset by lower volume on the INL Air Wing program. See further discussion of our revenue results in the "Results by Segment" section below.

Cost of services — Cost of services are comprised of direct labor, direct material, overhead, subcontractors, travel, supplies and other miscellaneous costs. Cost of services for the three months ended June 30, 2018 was \$476.6 million, an increase of \$66.9 million, or 16.3%, compared to the three months ended June 30, 2017. The increase in Cost of services was primarily driven by an increase in revenue, as discussed above. As a percentage of revenue, Cost of services increased to 86.6% for the three months ended June 30, 2018 compared to 86.4% for the three months ended June 30, 2017. See further discussion of the impact of program margins in the "Results by Segment" section below.

Selling, general and administrative expenses ("SG&A") — SG&A primarily relates to functions such as management, legal, financial accounting, contracts and administration, human resources, management information systems, purchasing, and business development. SG&A decreased by \$2.5 million, or 9.2%, to \$24.7 million during the three months ended June 30, 2018 primarily due to a reduction in consulting costs. SG&A as a percentage of revenue decreased to 4.5% for the three months ended June 30, 2018 compared to 5.7% for the three months ended June 30, 2017 as a result of the decrease in SG&A and increase in revenue discussed above.

Depreciation and amortization — Depreciation and amortization during the three months ended June 30, 2018 was \$6.0 million, a decrease of \$2.6 million, or 30.4%, primarily due to the full amortization of our DoS customer-related intangible assets during calendar year 2017.

Earnings from equity method investees — Earnings from equity method investees include our proportionate share of the income of our equity method investees deemed to be operationally integral to our business, such as Partnership for Temporary Housing LLC ("PaTH"). We expect our earnings from equity method investees to remain minimal throughout the remainder of the year unless additional task orders are received by our joint ventures.

Interest expense — Interest expense for the three months ended June 30, 2018 was \$16.1 million, a decrease of \$1.7 million, or 9.5%, compared to the three months ended June 30, 2017. The decrease is primarily due to the reduction in debt due to the \$54.9 million Excess Cash Flow principal payment made March 21, 2018, a reduction in issued letters of credit and the redemption of the \$39.3 million principal balance of the Senior Unsecured Notes in 2017.

Loss on early extinguishment of debt — We did not record any loss on early extinguishment of debt in the three months ended June 30, 2018 because we did not make any principal payments during this period. Loss on early extinguishment of debt was an immaterial amount during the three months ended June 30, 2017 due to the \$25.1 million Excess Cash Flow principal payment made on the Term Loan under the New Senior Credit Facility on April 4, 2017. Deferred financing costs associated with the additional prepayment were expensed and recorded to Loss on early extinguishment of debt.

Interest Income — Interest income for the three months ended June 30, 2018 was \$0.4 million, an increase of \$0.4 million, compared to the three months ended June 30, 2017. The increase is primarily due to more favorable interest rates combined with our higher cash position during the three months ended June 30, 2018.

Other income, net — Other income, net consists primarily of sublease income, gains/losses from foreign currency, asset sales and other items. Other income, net during the three months ended June 30, 2018 was \$0.5 million, an increase of \$0.3 million, which primarily relates to sublease income.

Provision for income taxes — Our effective tax rate consists of federal and state statutory rates, certain permanent differences and discrete items. For the three months ended June 30, 2018 and June 30, 2017, we reported a tax provision of \$3.1 million and \$5.3 million, respectively. The effective tax rate for the three months ended June 30, 2018 and June 30, 2017 was 11.1%, and 47.1%, respectively. The effective tax rate for the three months ended June 30, 2018 was driven primarily by a decrease to the valuation allowance and the reduction to the federal corporate income tax rate from 35% to 21% effective January 1, 2018 from the Tax Act. The effective tax rate for the three months ended June 30, 2017 was driven primarily by the increase in income before income taxes.

Consolidated Six Months Ended June 30, 2018 compared to the Six Months Ended June 30, 2017

The following tables set forth our unaudited consolidated results of operations, both in dollars and as a percentage of revenue, for the six months ended June 30, 2018 and June 30, 2017:

<i>(Amounts in thousands)</i>	Six Months Ended			
	June 30, 2018		June 30, 2017	
Revenue	\$ 1,084,654	100.0 %	\$ 934,159	100.0 %

Revenue — Revenue for the six months ended June 30, 2018 was \$1,084.7 million, an increase of \$150.5 million, or 16.1%, compared to \$934.2 million for the six months ended June 30, 2017. The increase was primarily due to increased scope on the LOGCAP IV program the G4 Worldwide Logistics Support, CLS Transport and Naval Test Wing Pacific contracts. The increase in revenue was partially offset by lower volume on the INL Air Wing program. See further discussion of our revenue results in the "Results by Segment" section below.

Cost of services — Cost of services are comprised of direct labor, direct material, overhead, subcontractors, travel, supplies and other miscellaneous costs. Cost of services for the six months ended June 30, 2018 was \$942.0 million, an increase of \$132.9 million, or 16.4%, compared to the six months ended June 30, 2017. The increase in Cost of services was driven by the increase

in revenue, as discussed above. As a percentage of revenue, Cost of services increased to 86.8% for the six months ended June 30, 2018 compared to 86.6% for the six months ended June 30, 2017. See further discussion of the impact of program margins in the "Results by Segment" section below.

Selling, general and administrative expenses ("SG&A") — SG&A primarily relates to functions such as management, legal, financial accounting, contracts and administration, human resources, management information systems, purchasing, and business development. SG&A decreased by \$8.9 million, or 15.0%, to \$50.0 million during the six months ended June 30, 2018 primarily due to a reduction in consulting costs and our cost reduction initiatives. SG&A as a percentage of revenue decreased to 4.6% for the six months ended June 30, 2018 compared to 6.3% for the six months ended June 30, 2017 as a result of the decrease in SG&A and increase in revenue discussed above.

Depreciation and amortization — Depreciation and amortization during the six months ended June 30, 2018 was \$12.0 million, a decrease of \$5.1 million, or 29.8%, primarily due to the full amortization of our DoS customer-related intangible assets during calendar year 2017.

Earnings from equity method investees — Earnings from equity method investees include our proportionate share of the income of our equity method investees deemed to be operationally integral to our business, such as PaTH. We expect our earnings from equity method investees to remain minimal throughout the remainder of the year unless additional task orders are received by our joint ventures.

Interest Income — Interest income for the six months ended June 30, 2018 was \$0.9 million, an increase of \$0.9 million, compared to the six months ended June 30, 2017. The increase is primarily due to more favorable interest rates combined with our higher cash position during the six months ended June 30, 2018.

Interest expense — Interest expense for the six months ended June 30, 2018 was \$33.1 million, a decrease of \$3.4 million, or 9.3%, compared to the six months ended June 30, 2017. The decrease is primarily due to the reduction in debt due to the \$54.9 million Excess Cash Flow principal payment made March 21, 2018, redemption of the \$39.3 million principal balance of the Senior Unsecured Notes in 2017 and a reduction in issued letters of credit partially offset by an increase due to the PIK interest on our Second Lien Notes.

Loss on early extinguishment of debt — Loss on early extinguishment of debt was \$0.2 million during the six months ended June 30, 2018 due to the \$54.9 million Excess Cash Flow principal payment made on the Term Loan under the New Senior Credit Facility on March 21, 2018. Loss on early extinguishment of debt was an immaterial amount during the six months ended June 30, 2017 due to the \$25.1 million Excess Cash Flow principal payment made on the Term Loan under the New Senior Credit Facility on April 4, 2017. Deferred financing costs associated with the additional prepayment were expensed and recorded to Loss on early extinguishment of debt.

Other income, net — Other income, net consists primarily of sublease income, gains/losses from foreign currency, asset sales and other items. Other income, net during the six months ended June 30, 2018 was \$1.1 million, a decrease of \$0.4 million, or 24.8%, compared to the six months ended June 30, 2017 primarily due to a favorable settlement of a legacy customer liability during the six months ended June 30, 2017.

Provision for income taxes — Our effective tax rate consists of federal and state statutory rates, certain permanent differences and discrete items. For the six months ended June 30, 2018 and June 30, 2017, we reported a tax provision of \$7.9 million and \$8.3 million, respectively. The effective tax rate for the six months ended June 30, 2018 and June 30, 2017 was 15.9%, and 59.2%, respectively. The effective tax rate for the six months ended June 30, 2018 was driven primarily by a decrease to the valuation allowance and the reduction to the federal corporate income tax rate from 35% to 21% effective January 1, 2018 from the Tax Act. The effective tax rate for the six months ended June 30, 2017 was driven primarily by the increase in income before income taxes, which impacted the valuation allowance.

Results by Segment – Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

Starting with this first quarter of calendar year 2018, we report the results of our operations using a basis where each quarterly period ends on the last day of the calendar quarter. The following tables set forth the revenue, both in dollars and as a percentage of our consolidated revenue, operating income and operating margin for our operating segments for the three months ended June 30, 2018 and June 30, 2017. See Note 10 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion.

	Three Months Ended			
	June 30, 2018		June 30, 2017	
	Revenue	% of Total Revenue	Revenue	% of Total Revenue
<i>(Amounts in thousands)</i>				
DynAviation	\$ 297,454	54.0%	\$ 290,274	61.2%
DynLogistics	251,246	45.7	183,624	38.7
Headquarters ⁽¹⁾	1,661	0.3	390	0.1
Consolidated revenue	\$ 550,361	100.0	\$ 474,288	100.0
	Operating Income (Loss)	Profit Margin ⁽³⁾	Operating (Loss) Income	Profit Margin ⁽³⁾
DynAviation	\$ 25,282	8.5%	\$ 20,700	7.1%
DynLogistics	28,896	11.5	23,799	13.0
Headquarters ⁽²⁾	(10,837)		(15,610)	
Consolidated operating income	\$ 43,341		\$ 28,889	

(1) Represents revenue earned on shared service arrangements for general and administrative services provided to unconsolidated joint ventures and elimination of intercompany items between segments.

(2) Headquarters operating loss primarily relates to amortization of intangible assets and other costs that are not allocated to segments and are not billable to our U.S. government customers and Global Advisory Group costs, partially offset by equity method investee income.

(3) Represents segment operating income as a percentage of segment revenue and does not consider Headquarters operating loss.

DynAviation

Revenue of \$297.5 million increased \$7.2 million, or 2.5%, for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 primarily due to the new CLS Transport and Naval Test Wing Pacific contracts and the Contractor Logistics Support T-34, T-44, T-6 program ("CLS T34/44/6"). The increase in revenue was partially offset by decreased content on the INL Air Wing contract and the completion of certain contracts.

Operating income of \$25.3 million for the three months ended June 30, 2018 as compared to \$20.7 million for the three months ended June 30, 2017 was primarily due to the timing of an incentive award fee on the CLS T34/44/6 contract and more favorable terms on the T-6 COMBS contract. These increases were partially offset by decreased content on the INL Air Wing program. Operating income of \$20.7 million for the three months ended June 30, 2017 was primarily due to the transition of the T-6 COMBS contract to the New T-6 COMBS Bridge contract with more favorable terms and improved performance from the Naval Aviation Warfighting Development Center ("NAWDC") contract.

DynLogistics

Revenue of \$251.2 million increased \$67.6 million, or 36.8%, for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 primarily due to increased scope on both the LOGCAP IV program and ALiSS contract and the G4 Worldwide Logistics Support contract, partially offset by the completion of the Philippines Operations Support ("POS") contract.

Operating income of \$28.9 million for the three months ended June 30, 2018 as compared to \$23.8 million for the three months ended June 30, 2017 was primarily due to higher volume as described above, and productivity and margin expansion across several contracts. Operating income of \$23.8 million for the three months ended June 30, 2017 was primarily due to strong performance on our LOGCAP IV program, which included the award of a twelve-month extension, and new task orders under the ALiSS contract.

Results by Segment – Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

The following tables set forth the revenue, both in dollars and as a percentage of our consolidated revenue, operating income (loss) and operating margin for our operating segments for the six months ended June 30, 2018 and June 30, 2017. See Note 10 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion.

	Six Months Ended			
	June 30, 2018		June 30, 2017

(2) Headquarters operating loss primarily relates to amortization of intangible assets and other costs that are not allocated to segments and are not billable to our U.S. government customers and Global Advisory Group costs, partially offset by equity method investee income.

(3) Represents segment operating income as a percentage of segment revenue and does not consider Headquarters operating loss.

DynAviation

Revenue of \$614.7 million increased \$36.5 million, or 6.3%, for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 primarily due to the new CLS Transport and Naval Test Wing Pacific contracts and the T-6 COMBS and CLS T34/44/6 contracts. The increase in revenue was partially offset by decreased content on the INL Air Wing contract and the completion of certain other contracts.

Operating income of \$51.2 million for the six months ended June 30, 2018 as compared to \$39.6 million for the six months ended June 30, 2017 was primarily due to more favorable terms on the T-6 COMBS contract and productivity on our CLS T34/44/6 contract. These increases were partially offset by decreased content on the INL Air Wing program. Operating income of \$39.6 million for the six months ended June 30, 2017 was primarily due to more favorable terms on the T-6 COMBS contract, the performance on our NAWDC contract, the completion of certain contracts and productivity on the MD530 subcontract.

DynLogistics

Revenue of \$468.8 million increased \$112.8 million, or 31.7%, for the six months ended June 30, 2018 compared to the six months ended June 30, 2017, primarily due to increased scope on both the LOGCAP IV program and ALiSS contract and the G4 Worldwide Logistics Support contract, partially offset by the completion of the Philippines Operations Support ("POS") contract.

Operating income of \$48.2 million for the six months ended June 30, 2018 as compared to \$41.3 million for the six months ended June 30, 2017 was primarily due to higher volume on our LOGCAP IV program and ALiSS contract and the performance on the G4 Worldwide Logistics Support contract. Operating income of \$41.3 million for the six months ended June 30, 2017 was primarily due to strong performance on our LOGCAP IV program, which included the award of a twelve-month extension, and new task orders under the ALiSS contract.

Liquidity and Capital Resources

Cash generated by operations and borrowings available under our New Senior Credit Facility are our primary sources of short-term liquidity. See Note 8 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion of our New Senior Credit Facility.

As of June 30, 2018, we had \$218.9 million of cash and cash equivalents with no debt retirements scheduled in the upcoming twelve month period other than the Excess Cash Flow principal payment which might be required (see discussion of Excess Cash Flow annual requirement below). We believe our current cash flow from operations and ability to refinance any upcoming amounts will be sufficient to cover our operating and capital needs for the next twelve months. However, our cash flow from operations is heavily dependent upon billing and collection of our accounts receivable and access to our class B revolving facility (the "Revolver") is dependent upon our meeting financial and non-financial covenants. Significant changes, such as a future government shutdown, further cuts mandated by sequestration or any other limitations in collections, significant future losses on any of our contracts or loss of our ability to access our Revolver, could materially impact liquidity and our ability to fund our working capital needs. Failure to meet covenant obligations prior to its scheduled maturity could result in an earlier elimination of access to our New Senior Credit Facility or other remedies by our Agent, such as the acceleration of our debt, which would materially affect our future expansion strategies and our ability to meet our operational obligations. See further discussion of our covenants in the *Financing* section below.

Our primary use of short-term liquidity includes debt service and working capital needs sufficient to pay for materials, labor, services or subcontractors prior to receiving payments from our customers. There can be no assurance that sufficient capital will continue to be available in the future or that it will be available at terms acceptable to us. Although we operate internationally, virtually all of our cash is held by either U.S. entities or by foreign entities which are structured as pass through entities. As a result, we do not have significant risk associated with our ability to repatriate cash.

The credit agreement governing the New Senior Credit Facility contains an annual requirement to submit a portion of our Excess Cash Flow as additional principal payments, which amounts may be used to satisfy the \$22.5 million principal payment on the Term Loan due no later than June 15, 2018. Based on our annual financial results for the year ended December 31, 2017 we made an additional principal payment as required under the Excess Cash Flow provisions of the New Senior Credit Facility of \$54.9 million on March 21, 2018, which fully satisfied the June 15, 2018 \$22.5 million principal payment requirement on the Term Loan.

Management believes Days Sales Outstanding ("DSO") is an appropriate way to measure our billing and collections effectiveness. DSO measures the efficiency in collecting our receivables as of the period end date and is calculated based on average daily revenue for the most recent quarter and accounts receivable and contract assets, net of contract liabilities and customer liabilities, as of the balance sheet date. DSO was 41 and 54 days as of June 30, 2018 and December 31, 2017, respectively, as we continued to focus on managing our customer payment cycles and due to the impact of an advanced payment from a customer during the quarter ended June 30, 2018. We expect cash to continue to be impacted by operational working capital needs, potential acquisitions and interest and principal payments on our indebtedness.

Cash Flow Analysis

(Amounts in thousands)	Six Months Ended	
	June 30, 2018	June 30, 2017
Net cash provided by (used in) operating activities	\$ 105,762	\$ (340)
Net cash provided by (used in) investing activities	207	(2,819)
Net cash used in financing activities	(55,366)	(23,813)

Cash Flows

Cash provided by operating activities during the six months ended June 30, 2018 was \$105.8 million compared to cash used in operating activities of \$0.3 million during the six months ended June 30, 2017. Cash provided by operating activities during the six months ended June 30, 2018 was primarily due to our net income and changes in working capital, driven by a reduction in accounts receivable and prepaid expenses as well as an increase in accrued expenses and contract liabilities. Cash used in operating activities during the six months ended June 30, 2017 was primarily due to our net income and changes in working capital, driven by a reduction in prepaid expenses and accrued expenses as well as an increase in accounts receivable.

Cash provided by investing activities during the six months ended June 30, 2018 was \$0.2 million compared to cash used in investing activities of \$2.8 million during the six months ended June 30, 2017. Cash provided by investing activities during the six months ended June 30, 2018 was primarily due to returns of capital from Babcock DynCorp Limited and GLS, offset by purchases of capital assets and contributions to GLS. Cash used in investing activities during the six months ended June 30, 2017 was primarily due to purchases of capital assets and returns of capital from and contributions to GLS.

Cash used in financing activities during the six months ended June 30, 2018 was \$55.4 million compared to \$23.8 million during the six months ended June 30, 2017. Cash used in financing activities during the six months ended June 30, 2018 was primarily the result of our excess cash flow payment. Cash used in financing activities during the six months ended June 30, 2017 was primarily the result of our excess cash flow payment and redemption of the senior unsecured notes, partially offset by capital contributions from Cerberus.

Financing

On April 30, 2016, we entered into Amendment No. 5 ("Amendment No. 5") to the Senior Credit Facility which provided for a new senior secured credit facility (the "New Senior Credit Facility") upon the satisfaction of certain conditions. On June 15, 2016, we satisfied the conditions set forth in Amendment No. 5 and the New Senior Credit Facility became effective. The New Senior Credit Facility is secured by substantially all of our assets and guaranteed by substantially all of our subsidiaries.

As of June 30, 2018, the New Senior Credit Facility provided for the following:

- a \$127.3 million Term Loan;
- a \$85.8 million Revolver; and
- up to \$15.0 million in incremental revolving facilities provided by and at the discretion of certain non-debt fund affiliates that are controlled by Cerberus (as defined herein), which shall rank *pari passu* with, and be on the same terms as, the Revolver.

As of June 30, 2018 and December 31, 2017, the available borrowing capacity under the New Senior Credit Facility was approximately \$65.5 million and included \$20.3 million in issued letters of credit. As of June 30, 2018 and December 31, 2017 there were no amounts borrowed under the Revolver. Amounts borrowed under the Revolver are used to fund operations. The Revolver and the Term Loan mature on July 7, 2019 and July 7, 2020, respectively. See Note 8 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion.

We incur quarterly interest payments on both the Term Loan and the Revolver comprised of (i) interest for Term Loan and Revolver borrowings, (ii) letter of credit commitments and (iii) unused commitment fees. See Note 8 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional information related to the New Senior Credit Facility.

As of June 30, 2018, the carrying amount of our Second Lien Notes was \$381.8 million. Interest on the Second Lien Notes accrues at the rate of 11.875% per annum, comprised of 10.375% per annum in cash and 1.500% per annum payable in kind ("PIK," and such interest "PIK Interest"). The cash portion of the interest on the Second Lien Notes is payable in cash and the PIK Interest on the Second Lien Notes is payable in kind, each semi-annually in arrears on January 1 and July 1, commencing on July 1, 2016. See Note 8 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional information related to the Second Lien Notes.

The weighted-average interest rate as of June 30, 2018 for our debt, excluding the Cerberus 3L Notes, was 10.9%, excluding the impact of deferred financing fees. There were no interest rate hedges in place during the three and six months ended June 30, 2018.

On June 15, 2016, DynCorp Funding LLC, a limited liability company managed by Cerberus Capital Management, L.P. ("Cerberus"), entered into a Third Lien Credit Agreement (the "Third Lien Credit Agreement") with us. Under the Third Lien Credit Agreement, DynCorp Funding LLC has made a \$30 million term loan to us (the "Cerberus 3L Notes"). The interest rate per annum applicable to the Cerberus 3L Notes is 5.00%, payable in kind on a quarterly basis. The Cerberus 3L Notes do not require any mandatory amortization payments prior to maturity and the outstanding principal amounts shall be payable on June 15, 2026.

Debt Covenants and Other Matters

The New Senior Credit Facility contains a number of financial, as well as non-financial, affirmative and negative covenants that we believe are usual and customary. Among other things, the New Senior Credit Facility requires us to maintain a maximum total leverage ratio and a minimum interest coverage ratio. The total leverage ratio is the ratio of Consolidated Total Debt, as defined in Amendment No. 5 (which definition excludes debt under the Cerberus 3L Notes), less unrestricted cash and cash equivalents (up to \$75.0 million) to Consolidated EBITDA, as defined in Amendment No. 5, for the applicable period. The maximum total leverage ratio was 5.40 to 1.0 for the period ended June 30, 2018. The interest coverage ratio is the ratio of Consolidated EBITDA to Consolidated Interest Expense, as defined in Amendment No. 5 (which provides that interest expense with respect to the Cerberus 3L Notes is excluded). The minimum interest coverage ratio was 1.70 to 1.0 for the period ended June 30, 2018.

The New Senior Credit Facility requires, solely for the benefit of the lenders under the Revolver, for us to maintain minimum liquidity (based on availability of revolving credit commitments plus unrestricted cash and cash equivalents) as of the end of each fiscal quarter ending after December 31, 2017 of not less than \$50 million. The credit agreement governing the New Senior Credit Facility also contains customary representations and warranties and events of default.

The Indenture contains a number of non-financial affirmative and negative covenants we believe are usual and customary. These covenants are subject to a number of important exceptions and qualifications as set forth in the Indenture. The Cerberus 3L Notes include non-financial affirmative and negative covenants consistent with the covenants set forth in the Second Lien Notes; provided that each "basket" or "cushion" set forth in the covenants is at least 25% less restrictive than the corresponding provision set forth in the Second Lien Notes.

We closely evaluate our expected ability to remain in compliance with our financial maintenance covenants. As of June 30, 2018 and December 31, 2017, we were in compliance with our financial maintenance covenants under the New Senior Credit Facility. We expect, based on current projections and estimates, to be in compliance with our covenants in the New Senior Credit Facility (including our financial maintenance covenants), and the covenants in the Second Lien Notes and the Cerberus 3L notes, further discussed below, for the next twelve months.

Non-GAAP Measures

We define EBITDA as Generally Accepted Accounting Principles ("GAAP") net income attributable to Delta Tucker Holdings, Inc. adjusted for interest expense, taxes and depreciation and amortization. Adjusted EBITDA is calculated by adjusting EBITDA for the items described in the table below. We use EBITDA and Adjusted EBITDA as supplemental measures in the evaluation of our business and believe that EBITDA and Adjusted EBITDA provide a meaningful measure of operational performance on a consolidated basis because they eliminate the effects of period to period changes in taxes, costs associated with capital investments and interest expense and are consistent with one of the measures we use to evaluate management's performance for incentive compensation. In addition, Adjusted EBITDA as presented in the table below corresponds to the definition of Consolidated EBITDA used in the New Senior Credit Facility and/or the definition of EBITDA used in the Indenture governing the Second Lien Notes to test the permissibility of certain types of transactions, including debt incurrence. Neither EBITDA nor Adjusted EBITDA is a financial measure calculated in accordance with GAAP. Accordingly, they should not be considered in isolation or as substitutes for net income attributable to Delta Tucker Holdings, Inc. or other financial measures prepared in accordance with GAAP.

Management believes these non-GAAP financial measures are useful in evaluating operating performance and are regularly used by security analysts, institutional investors and other interested parties in reviewing the Company. Non-GAAP financial measures are not intended to be a substitute for any GAAP financial measure and, as calculated, may not be comparable to other similarly titled measures of the performance of other companies. When evaluating EBITDA and Adjusted EBITDA, investors should consider, among other factors, (i) increasing or decreasing trends in EBITDA and Adjusted EBITDA, (ii) whether EBITDA and Adjusted EBITDA have remained at positive levels historically, and (iii) how EBITDA and Adjusted EBITDA compare to our debt outstanding. The non-GAAP measures of EBITDA and Adjusted EBITDA do have certain limitations. They do not include interest expense, which is a necessary and ongoing part of our cost structure resulting from the incurrence of debt. EBITDA and Adjusted EBITDA also exclude tax, depreciation and amortization expenses. Because these are material and recurring items, any measure, including EBITDA and Adjusted EBITDA, which excludes them has a material limitation. To mitigate these limitations, we have policies and procedures in place to identify expenses that qualify as interest, taxes, loss on debt extinguishments and depreciation and amortization and to approve and segregate these expenses from other expenses to ensure that EBITDA and Adjusted EBITDA are consistently reflected from period to period. Our calculation of EBITDA and Adjusted EBITDA may vary from that of other companies. Therefore, our EBITDA and Adjusted EBITDA presented may not be comparable to similarly titled measures of other companies. EBITDA and Adjusted EBITDA do not give effect to the cash we must use to service our debt or pay income taxes and thus do not reflect the funds generated from operations or actually available for capital investments.

The following table provides a reconciliation of net income attributable to Delta Tucker Holdings, Inc. and EBITDA and Adjusted EBITDA for the periods included below:

Delta Tucker Holdings, Inc.
Unaudited Adjusted EBITDA

<i>(Amounts in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Net income attributable to Delta Tucker Holdings, Inc.	\$ 24,809	\$ 5,676	\$ 41,217	\$ 5,189
Provision for income taxes	3,140	5,300	7,884	8,339
Interest expense, net of interest income	15,675	17,745	32,138	36,455
Depreciation and amortization ⁽¹⁾	6,901	9,027	13,721	17,925

Other ⁽⁶⁾	(708)	(164)	(1,342)	(570)
Adjusted EBITDA	\$ 48,877	\$ 39,266	\$ 96,062	\$ 75,794

(1) Includes certain depreciation and amortization amounts which are classified as Cost of services in our unaudited condensed consolidated statements of operations.

(2) Includes certain unusual income and expense items, as defined in the Indenture and New Senior Credit Facility.

(3) Includes post-employment benefit expense related to severance in accordance with ASC 712 - *Compensation*, relocation expenses, retention expense and share based compensation expense.

(4) Includes Cerberus Operations and Advisory Company expenses, net of recovery.

(5) Reflects Global Advisory Group cost incurred during the three and six months ended June 30, 2017, which we were able to add back to Adjusted EBITDA under the Indenture and New Senior Credit Facility in an aggregate amount up to a total of \$30 million, which was fully utilized as of the second quarter of calendar year 2017.

(6) Includes changes due to fluctuations in foreign exchange rates, earnings from affiliates not received in cash, costs incurred pursuant to ASC 805 - *Business Combination* and other immaterial items.

Off Balance Sheet Arrangements

The Company did not have any material off-balance sheet arrangements subsequent to the filing of our consolidated financial statements in our Annual Report on Form 10-K as defined under SEC rules.

Critical Accounting Policies and Estimates

The process of preparing financial statements in conformity with GAAP requires the use of estimates and assumptions to determine reported amounts of certain assets, liabilities, revenues and expenses and the disclosure of related contingent assets and liabilities. These estimates and assumptions are based on information available at the time of the estimates or assumptions, including our historical experience, where relevant. Significant estimates and assumptions are reviewed quarterly by management. The evaluation process includes a thorough review of key estimates and assumptions used in preparing our financial statements. Because of the uncertainty of factors surrounding the estimates, assumptions and judgments used in the preparation of our financial statements, actual results may materially differ from the estimates.

Our critical accounting policies and estimates are those policies and estimates that are both most important to our financial condition and results of operations and require the most difficult, subjective or complex judgments on the part of management in their application, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

On January 1, 2018, we updated our critical accounting policies due to adoption of ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* ("ASC 606"), using the modified retrospective method. ASC 606 replaces numerous requirements in U.S. GAAP, including industry-specific requirements, and provides companies with a single revenue recognition model for recognizing revenue from contracts with customers. The core principle of the new standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The impacts related to the adoption of ASC 606 on our portfolio of contracts primarily relate to the units of account and methods used to measure of progress toward satisfaction of a performance obligation. Previously, certain of our contracts that included multiple promises related to the transfer of goods or services to the customer were combined or segmented based on profit center and the requisite revenue was recognized by profit center using the percentage-of-completion method or completed-contract method. We now evaluate all promises in an arrangement to determine if they represent one or more distinct performance obligations. See "Revenue Recognition and Cost Estimation on Long-Term Contracts" in Note 1 to the financial statements for additional information regarding our revenue recognition accounting policies.

For a discussion of our critical accounting policies and estimates please refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the notes to the Delta Tucker Holdings, Inc. consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. Any material changes to our accounting policies and estimates, from those described in our Annual Report on Form 10-K for the year ended December 31, 2017 are further discussed in Note 1.

Accounting Developments

The information regarding recent accounting pronouncements is included in Note 1.

ITEM 3. *QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.*

There has been no significant change in our exposure to market risk during the three months ended June 30, 2018, except as described below. For discussion of our exposure to market risk, refer to Item 7A. Quantitative and Qualitative Disclosures about Market Risk contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Interest Rate Risk

We have interest rate risk primarily related to changes in interest rates on our variable rate debt. We manage our exposure to movements in interest rates through the use of a combination of fixed and variable rate debt.

As of June 30, 2018, we had 76.5% of our debt at a fixed rate and 23.5% at a variable rate. As of December 31, 2017, we had 69.3% of our debt at a fixed rate and 30.7% at a variable rate. Our Second Lien Notes, which had an aggregate principal amount of \$381.8 million and \$379.0 million, respectively, outstanding as of June 30, 2018 and December 31, 2017 and Cerberus 3L Notes, which had an aggregate principal amount of \$33.2 million and \$32.4 million, respectively, outstanding as of June 30, 2018 and December 31, 2017, represent our fixed rate debt.

Our Term Loan and Revolver represent our variable rate debt. As of June 30, 2018 and December 31, 2017, the balance of our Term Loan was \$127.3 million and \$182.3 million, respectively, and we had no borrowings under the Revolver. The Term Loan bears interest, based on our option, equal to either the Eurocurrency Rate or the Base Rate as described below, in each case, plus an applicable rate of (i) 6.00% in the case of Eurocurrency Rate loans and (ii) 5.00% in the case of Base Rate loans. The Revolver bears interest, based on our option, equal to either a Eurocurrency Rate or a Base Rate as described below plus (i) a range of 4.50% to 5.00% based on the First Lien Secured Leverage Ratio in the case of Base Rate loans and (ii) a range of 5.50% to 6.00% based on the First Lien Secured Leverage Ratio in the case of Eurocurrency Rate loans. The Eurocurrency Rate is the rate per annum equal to the London Interbank Offered Rate ("LIBOR") as published on the applicable Bloomberg screen page (or other commercially available source provisions quotations of LIBOR as designated by the Agent from time to time) two London Banking Days prior to the commencement of such interest period. The variable Eurocurrency Rate has as floor of 1.75%. The variable Base Rate is equal to the higher of (a) the Federal Funds Rate plus one half of one percent and (b) the rate of interest in effect for such day as publicly announced from time to time by Bank of America, N.A. as its prime rate; provided that in no event shall the Base Rate be less than 1.00% plus the Eurocurrency Rate applicable to one-month interest periods on the date of determination of the Base Rate. The variable Base Rate has a floor of 2.75%. The Term Loan interest rate of 8.09% at June 30, 2018 was made up of a 6.00% applicable rate plus a Eurocurrency Rate of 2.09% and the Term Loan interest rate of 7.75% at December 31, 2017 was made up of a 6.00% applicable rate plus the Eurocurrency Rate floor of 1.75%. Under the New Senior Credit Facility, if we continue to have no outstanding Revolver borrowings, each 25 basis point increase in LIBOR over 1.75% would result in \$0.3 million in additional interest expense annually. See Note 8 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional information.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures - We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed under the Exchange Act is recorded, processed, summarized and reported within the specified time periods and accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of its disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered in this Quarterly Report on Form 10-Q. Based on the evaluation performed, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Inherent Limitations of Internal Controls - Our management, including the Company's Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes in Internal Control Over Financial Reporting. There have been no changes in our internal control over financial reporting (as such term is defined in rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION.

ITEM 1. LEGAL PROCEEDINGS.

Information related to various commitments and contingencies is described in Note 9 included elsewhere in this Quarterly Report on Form 10-Q.

ITEM 1A. RISK FACTORS.

There have been no material changes in the risk factors from those described in "Risk Factors" disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

The following exhibits are filed as part of, or incorporated by reference into, the Quarterly Report on Form 10-Q.

Exhibit No.	Description
<u>31.1*</u>	Certification of the Chief Executive Officer of Delta Tucker Holdings, Inc. pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
<u>31.2*</u>	Certification of the Chief Financial Officer of Delta Tucker Holdings, Inc. pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
<u>32.1*</u>	Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
<u>32.2*</u>	Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Date: August 6, 2018

DELTA TUCKER HOLDINGS, INC.

/s/ William T. Kansky

William T. Kansky

Senior Vice President and Chief Financial Officer

**CERTIFICATION
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, George Krivo, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Delta Tucker Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
